Material

13

Electrogalvanized according to DIN 50961

RICO galvanization provides perfect protection against corrosion in living or industrial areas and a appealing surface at the same time.

The order number of products with electrogalvanization always starts with 13.

14

DoubleDip galvanization (continuously hot galvanization)

The steel strip of articles with the DoubleDip galvanization passes a dip of pure zinc and afterwards a dip of galfan (95% zinc, 5% aluminium).

This DoubleDip film provides a very good formability and a optimally dimensional accuracy for distortion-free products.

The order number of products with DoubleDip galvanization always starts with 14.

15

Continuously hot galvanized according to DIN EN 10327

RICO continuously hot galvanization with a layer thickness of approx. 20 µ provides sufficient protection against corrosion in dry interiors (without aggressive environment). This also applies to the untreated cutting edges, since the cathodic protection between steel and zinc acts there, provided that a sheet-thickness of 2 mm is not exceeded. RICO ensures that this limit is not exceeded at continuously hot galvanized.

The order number of products with RICO continuously hot galvanization always starts with 15.

16

Hot dip galvanization according to DIN EN ISO 1461

With at least 55 µ thickness RICO hot dip galvanized products have a layer which is almost three times as thick. They are suitable for outdoor purposes. The approximate values for the annual zinc loss amount to:

Non-urbanized air	0,1 - 1,0 µ	RICO hot dip galvanized products are dipped in liquid zinc after being manufactured,
Urbanized air	1,0 - 2,0 µ	so that all edges welds are also protected against corrosion.
sea air	2,0 - 4,0 µ	Cutting edges arising later during installation can be treated with cold zinc in accordance with DIN 50976.

RICO hot dip galvanization is generally applied to nuts, screws, washers and bolts.

The order numbers of RICO hot dip galvanized products always begin with 16.

17

Stainless steel V2A (material 1.4301)

RICO provides complete systems made of stainless steel for special applications, for example in the food industry or in aggressive environment. For further information please refer to the special section in this catalogue.

The order numbers of RICO stainless steel products always begin with 17.

18

Stainless steel V4A (material 1.4571) see stainless steel V2A

The order number of products in stainless steel always starts with 18.

30

Plastic RICO always offers the solution for your out-of-the-ordinary requirements. The "Cable trays" section therefore includes a system which is manufactured completely of glass fibre reinforced polyester.

The order numbers of products made of plastic always begin with 30.

1W15-...-B

Order number and material alternatives at a glance:

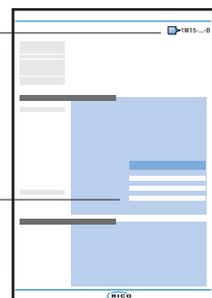

The first two numbers specify the material. The remaining character specify design features and any dimensional alternatives.

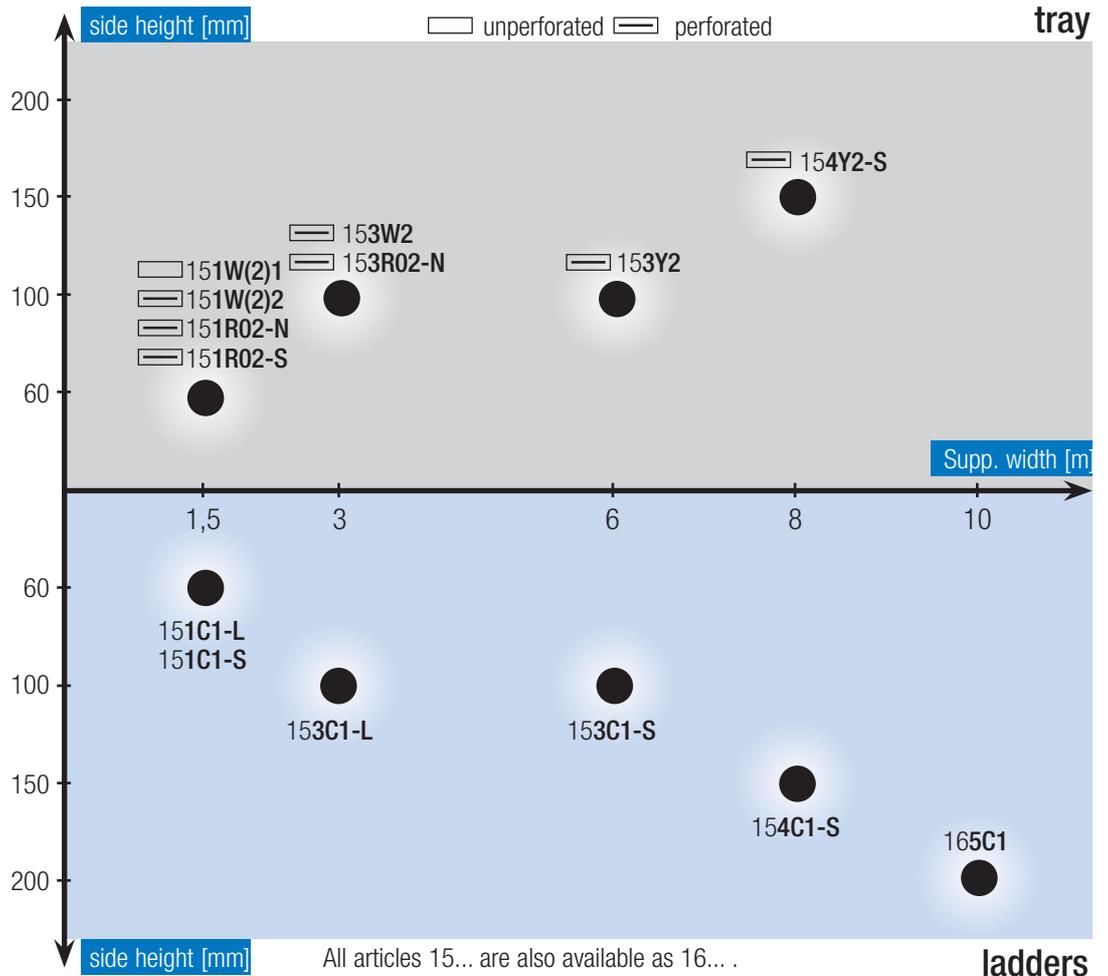

The preceding squares specify the material alternatives in which the product is generally available. Optically "highlighted" alternatives (in our example 151W15-...-B) are always available, the other alternatives (for example 161W15-...-B) on request. Further information on the various materials can be found on page 2 on this planner.

Rtray or ladder

A cable tray is suitable for most applications. It provides easy cable laying and optimal protection of cables. A further advantage is optical: Trays allow "tidy" laying, especially in case of light installation with thin cables. RICO recommends perforated products in order to ensure that the heat is discharged sufficiently.

Cable ladders are more suitable for power cables with a higher degree of heat generation. Cable ladders are more suitable for all types of cables outdoors or in areas with dirt occurrence.

Info

Side height

If the support spacing provides the possibility, we recommend using trays or ladders having a side height of 60 mm. Greater heights are only advisable if you are laying mainly control and data cables and the heat generation is correspondingly low.

Support width

The support width is the distance between two support points. If you specify these points freely, RICO recommend that you use standard trays or ladders with a standard support width of 1.5 m. This reduces the cost of the complete system. If you have to bridge greater distance, simply select the suitable system from the diagram below.

trays

ladders

A question of the cable cross-section

Whether you only need one tray or ladder length or more than one of course depends on the amount of cable which you have to lay. First determine the cross-section areas of your cable types. Please do not use πr^2 , to do so, but rather the cable cross-section within a square. This ensures that the unavilable voids and spaces for heat discharge are taken into consideration automatically.

Now add the cross-sections of all the cables. The two tables show the total cross-section of the respective raceways.

We recommend that you plan for the future. Use the second table. It includes a cable reserve capacity of 25% so that cables can be added later.

Reserves in the load-bearing capacity, support during planning

You can rely on both. In one case all you have to do is phone. In the other case all you need to do is glance at this page. The safety margins provided by RICO depend on the cable load per meter in the individual raceways. You can either determine this load exactly or use a rough basis:

1. Exact determination: Refer to manufacturer's documentation for the meter weights of cables and add them for each raceways, whereby the following rule applies: 1kg/m = 10N/m.

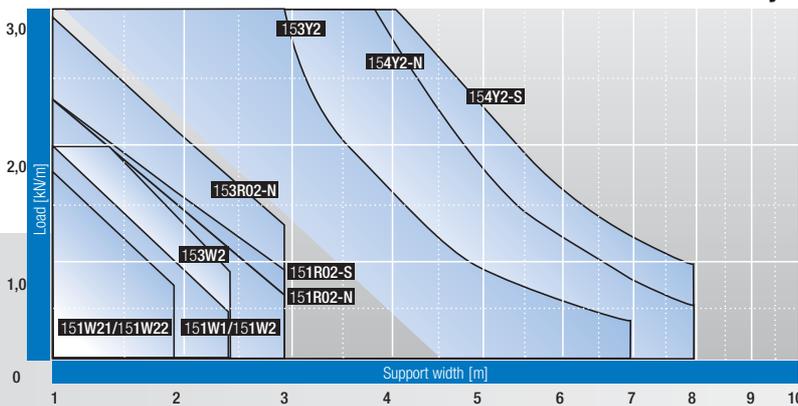

2. Formula to estimate:
Max. permissible cable load [N/m] = cross-section [cm²] x 2.8 N/m · cm²

3. Value based on common experience:
Cable load = 0.15 kN/m pro 100 mm raceway width with side height 60 mm.

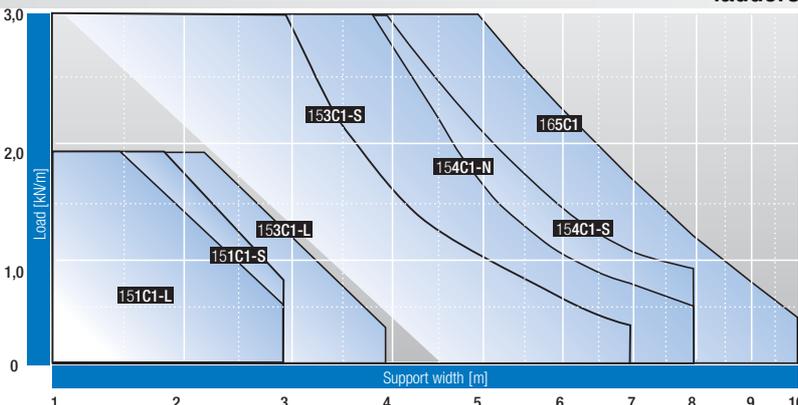

The resulting load on your raceway taken together with the selected support width defines a coordinate point on the diagram. If the point lies within the area assigned to the selected tray or ladder type, you are on the safe side.

For even more detailed consideration please refer to the load diagrams on the respective product pages.

ladders

Achieving aims

- Complete range of standard products as well as the invention and production of special solutions and for extreme requirements.
- High degree in specialisation in all sectors in order to comply with extreme and more seldom demands.
- Complete solutions according to customer demands
- Engineering, specialisation and mounting out of one hand
- IT-based project controlling and management
- Quality proved by numerous certificates and audits

For more than 50 years, we are successfully creating products and solutions for all types of requirement in the field of cable system management.

Already in the fifties of the past century, the founders of the firm, family Rieth from Kirchheim, provided cable management systems to be mounted according to a special system, all over the world. Therefore family Rieth was the one who invented and produced the first cable tray systems. Right from the start of the firm, inventive ideas and comprehensive services expressively formed part of the company's main aims. Also as a member of the Niedax Group, RICO GmbH & Co. KG has a conserved this traditin to be the number one in many respects. The high level of technical competence and of qualification in design as well as the consequent organizing of all the procedures and the highquality of the product execution as well of the mounting form the base of our continuous success. However, the real test is made at the construction site: We know the construction sites all over the world. And there they know us as their partner in planning, supply and mounting and naturally; the best way of learning is practical learning at the job.

RICO - We solve problems of industrial and commercial applications.

The success os proved by reference lists with prestigious firms and combines from the building industry of power stations, the total sector of the heavy and the automobile industry, chemical production, office buildings, tunneling sector, airports, football stadiums, open air mining, specified orders, etc.

Cable trays

Cable trays

This chapter contains an overview of the RICO cable tray systems for various loads and applications, subdivided into product families.

see system pictures 1 to 6

Table of contents page

Standard trays

60 mm side height, standard support with 1.5 m	3
110 mm side height, standard support width 3.5 m	17

Special trays

INSTA-trays, 60 mm side height, support width up to 3.0 m	29
Luminaire support tray, 50 mm side height, support width up to 3.0 m	39
Trellis tray, 60 mm side height, standard support width 1.5 m	43
C-trellis tray, 50 mm side height, standard support width 2.0 m	49
Plastic cable trays, 60 mm side height, standard support width 1.5 m	55

Cable trays

RICO cable trays for laying cables and lines for various loads.

The RICO standard tray systems with 60 mm side height for the standard support width 1.5 m include:

see system pictures 1 to 4

Table of contents	page
-------------------	------

Cable trays, unperforated or perforated

standard design, unperforated: 151W1-...	4
standard design, perforated: 151W22-..., 151W2-... / 161W2-...	5
cable tray 151W02-...-L / 161W02-...-L, perforated	6
cable tray 151W01-...-L / 161W01-...-L, unperforated	7
thickness of sheet 1.5 mm, perforated: 151R02-...-N / 161R02-...-N	8
thickness of sheet 2.0 mm, perforated: 151R02-...-S / 161R02-...-S	9

Molding components for cable trays

bend: 151W3-...-B / 161W3-...-B	10
extension tee: 151W15-...-B / 161W15-...-B	10
corner: 151W17-B / 161W17-B	10

Joining pieces for cable trays

straight joints, bendable joints and hinge piece 151E12-... / 161E12-...	11
straight joint, screwless: 151E14-A / 161E14-A	7
joint cover plate: 15W9-... / 16W9-...	7
joint cover plate: 15W7-... / 16W7-...	11
reducing plate: 151W18-... / 161W18-...	12

Accessory for cable trays

cable protection plate: 15W11-... / 16W11-...	13
divider strip: 151W13-A / 161W13-A / 141W13-A	13
support corner: 16U6-A	13
edge protection: 15V13-A / 18V13-A	13
mounting plate 15Y34-MP1 / 16Y34-MP1	12

Covers

covers for trays, without or with locking: 15W12-... / 16W12-...	14
cover for molding components: 15W12-...-B / 16W12-...-B, 15W12-...-BR / 16W12-...-BR, 15W12-...-T / 16W12-...-T, 15W12-...-TR / 16W12-...-TR	15

Accessory for covers

locking device: 16N12-V / 16N14-V	14
fixing clip 171W12-K	14
fixing spring 17W12-K	14

Standard trays - System 60

cable tray

15

16

cable tray 151W1-..., unperforated

Material	- sheet steel, unperforated - continuously hot galvanized according to DIN EN 10327
Supply length	- 3000 mm
Technical data	- side height 60 mm, standard support spacing 1.5 m - electrical bonding with 1 screw 16J6-B
Field of application	- installation on brackets and consoles

Ordering information

Fixing details

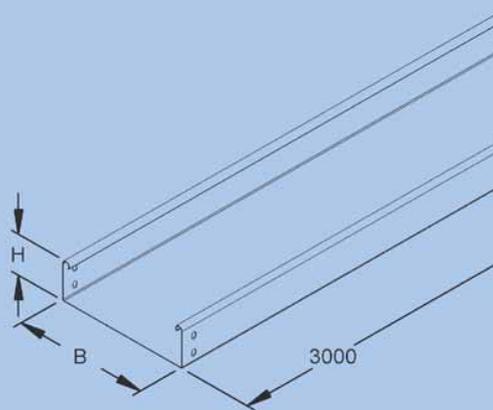

Use screws 16J6-B to fix on brackets.

Use bend 151W3-...-B / 161W3-...-B or corner 151W17-b / 161W17-B to produce curves.

Use extension tee 151W15-...-B / 161W15-...-B to produce junction.

Use straight joint 151E12-... / 161E12-... and joint cover plates 15W7-... / 16W7-... for additional connections.

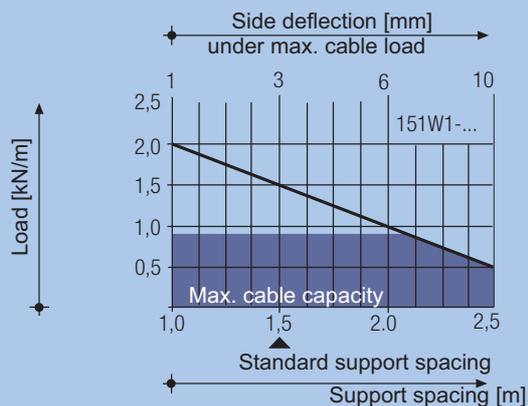

Fixing material	Page
screw 16J6-B	12

Width (mm)	t (mm)	Order No. contin. hot galv.	Weight (kg/pce.)
100	0.9	151W1-100	4.02

Material	- sheet steel - continuously hot galvanized according to DIN EN 10327 or hot dip galvanized according to DIN EN ISO 1461
Technical data	- side height 60 mm - delivered as kit including fixing material - suitable for all tray widths from von 100 mm to 600 mm - integrated jointing piece with preshaped perforations for fast and easy installation
Field of application	- to make 90° junctions and 90° corners, use 2 extension tees to make crossing

Ordering information

Fixing details

Bend

→ Place bend on tray ends.

→ Fasten bend side to tray with screws 16J6-B.

extension tee

→ Cut out tray side (length of cut out = width of tee + 280 mm).

→ Deburr cut edges.

→ Using pliers, fold over tab ends of tray on both sides and clamp.

→ Place tee on the cut out and fasten it to tray sides with screws 16J6-B.

→ Fasten floor plates with 3 screws 16J6-B.

corner

→ Cut out inside of trays (length of cut out = width of tray + 145 mm).

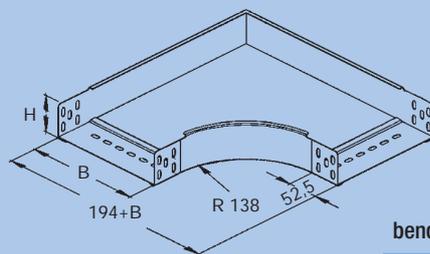

→ Deburr cut edges.

→ Using pliers, fold over tab ends of trays and clamp.

→ Place corner on the tray ends overlapping in the 90° angle.

→ Fasten trays side with 2 screws 16J6-B.

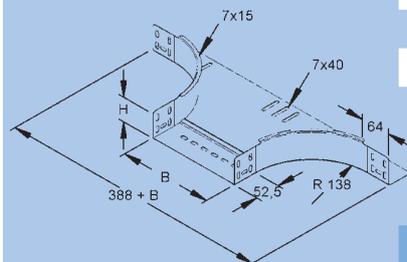

→ Fasten floor of corner and trays with screw 16J6-B.

Material	- sheet steel - continuously hot galvanized according to DIN EN 10327 or hot dip galvanized according to DIN EN ISO 1461
Technical data	- side height 60 mm - suitable for all tray widths from 100 mm to 600 mm - delivery includes fixing screws
Field of application	- jointing piece for making straight, angular, upward or downward connection of cable trays

Ordering information

Fixing details

- Mount jointing pieces to or push it on tray ends.
- Fasten joint piece and tray sides with 2 screws 16J6-B.

straight joint

- Cover cut edges on straight joint with joint cover plate 15W7-... / 16W7-....

bendable joint

- Make a mitre cut for large changes of direction (max. 90°).

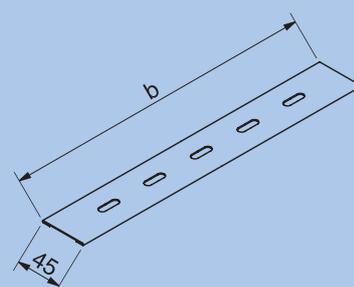

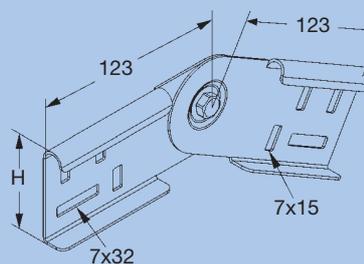

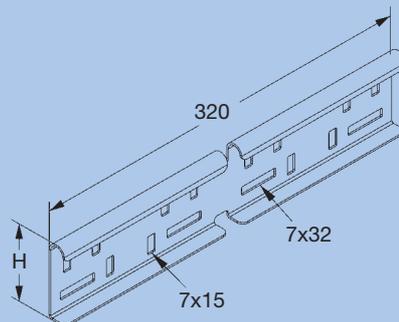

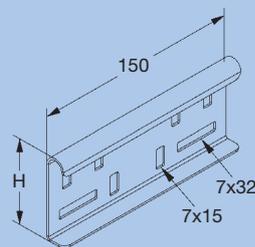

hinge piece

- Insert cable protection plate 15W11-... / 16W11-... at upper break point.
- Cover cut edges with edge protection 15V13-A.

joint cover plate

- Place joint cover plate 15W7-... / 16W7-... on the tray connection and fasten clamping lugs.

Technical data	- side height 110 mm - delivered as kit including fixing material - suitable for all tray widths from 100 mm to 600 mm - integrated jointing piece with preshaped perforations for fast and easy installation
Field of application	- to make 90° junctions and 90° corners, to make crossings with 2 tees

Ordering information

Fixing details

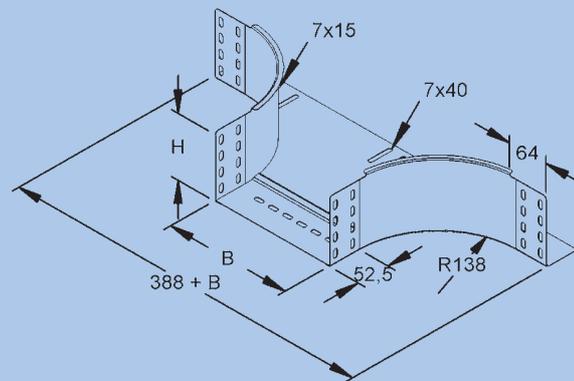

extension tee

- Cut out tray side (length of cut out = width of tee+ 280 mm).
- Deburr cut edges.
- Using pliers, fold over tab ends of tray on both sides an clamp.
- Use tee to fix on cutout and fastenit to tray sides with screw 16J6-B.
- Fasten floor plates with 3 screws 16J6-B.

corner

- Cut out inside of trays (length of cut out = widths of tray + 145 mm).
- Deburr cut edges.
- Using pliers, fold over tab ends of trays and clamps.
- Place corner on the tray ends overlapping in the 90° angle.
- Fasten tray sides with 2 screws 16J6-B.
- Fasten floors of corner and trays with screws 16J6-B.

Trellis trays - System 60

Trellis tray

15
16
1S1-...

trellis tray 131S1-... / 161S1-...

Material	- steel wire - electrogalvanized according to DIN 50 961 or hot dip galvanized according to DIN EN ISO 1461
Supply length	- 3000 mm
Technical data	- side height 60 mm; side height 85 mm/110 mm on request - standard support spacing 1.5 m
Anwendungsbereich	- suitable for all electric installations

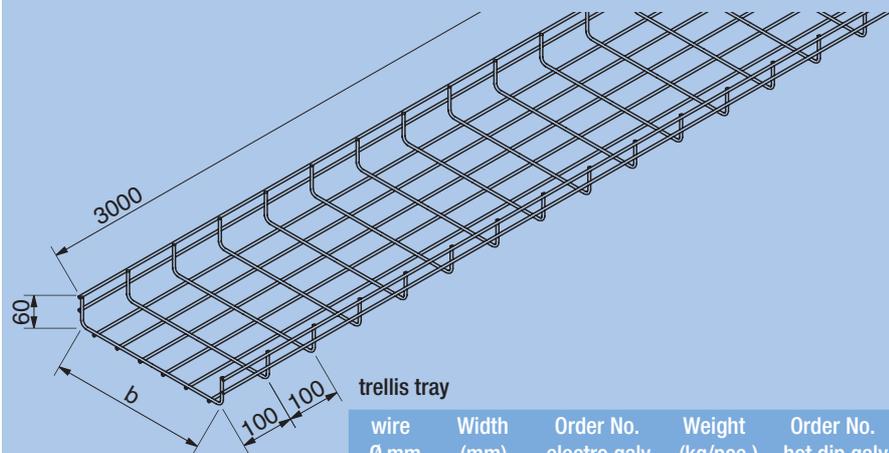

Ordering information

Fixing details

- Installation on brackets.
- For horizontal and vertical trellis tray curves cut out longitudinal and transverse wires.
- Use universal jointing piece 15S14-A / 16S14-A to fix tray and bends.

Right angle connection of trellis tray

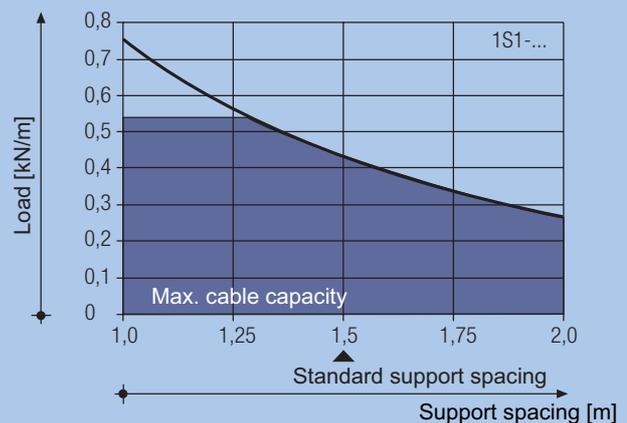

- Cut out sides sections of the trellis trays.
- Fix trellis tray at contacting points with universal jointing piece 15S14-A / 16S14-A.

wire Ø mm	Width (mm)	Order No. electro galv.	Weight (kg/pce.)	Order No. hot dip galv.	Weight (kg/pce.)

- suitable for all ladder widths from 200 mm to 600 mm
- bend for making horizontal 90° curves
- extension tees for making 90° junctions, crossing made with 2 extension tees

Ordering information

Fixing details

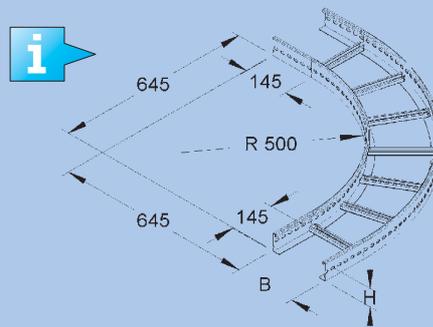

bend

- Connect sides of bend and ladder with straight joint 151E11-A / 161E11-A and screw 16J6-P.

extension tee

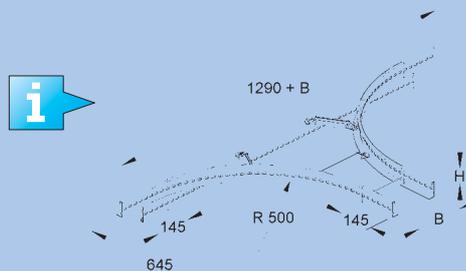

- Cut out ladder side (width of extension tee+ 1280 mm).
- Bore out the rung's rivets and seperated with chisel.
- Insert extension tee.
- Connect sides of extension tee and ladder with straight joint 151E11-A / 161E11-A and screws 16J6-P.
- Fasten loose ladder rungs to extension tee support side with fixing screws 16J6-H-V.

Wide span trays - System 105

Cable tray

15
16
3Y2-...

wide span cable tray 153Y2-... / 163Y2-..., perforated

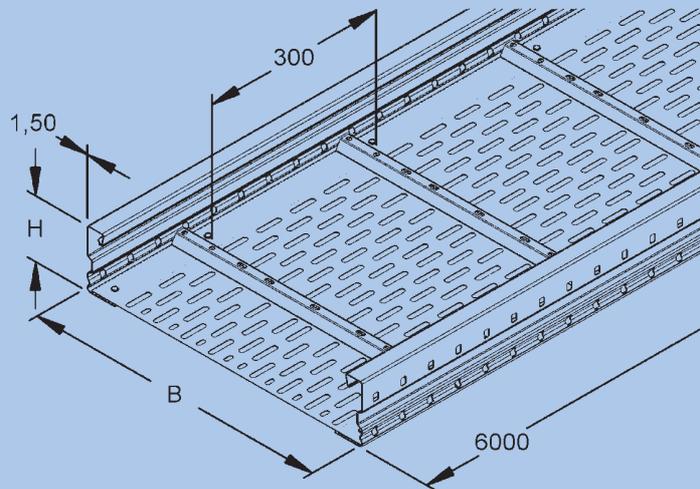

Material	- sheet steel, perforated - continuously hot galvanized according to DIN EN 10327 or hot dip galvanized according to DIN EN ISO 1461
Supply length	- 6000 mm
Technical data	- side height H = 105 mm, thickness 1,5 mm, support spacing max. 7 m - continuous perforation of the side members for jointing pieces - suitable for high loads under large support spacing - high degree of cross stability
Field of application	- installation on brackets and consoles

Ordering information

Fixing details

- Use screws 16J6-P when fixing to brackets.
- Use bend 153Y3-... / 163Y3-... to produce curves.
- Use extension tee 153Y15-... / 163Y15-... or tee 153Y4-... / 163Y4-... to produce junctions.
- Use jointing piece 153C9-... / 163C9-... to connect trays.

Wide span ladders - System 200

Cable ladder, industrial design

16 5C1-...

wide span cable ladder 165C1-...

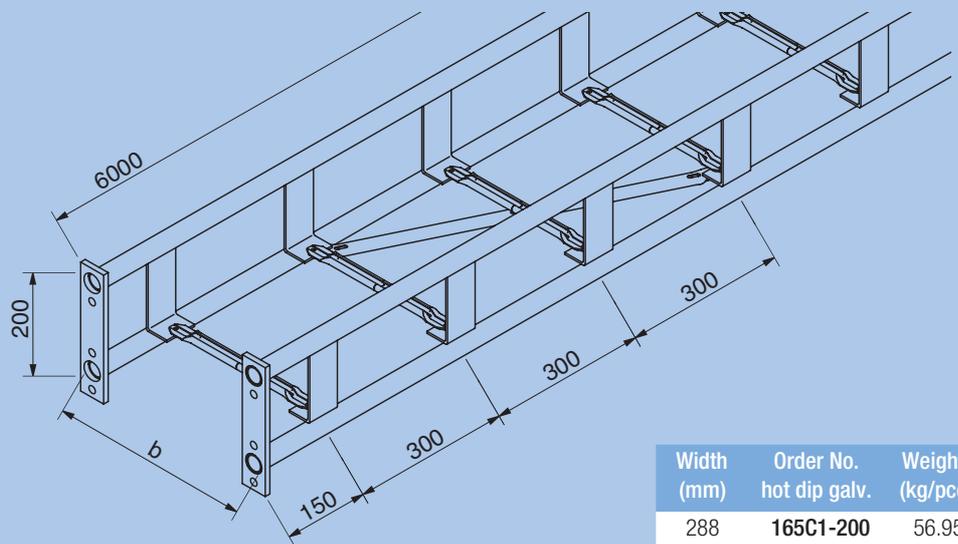

Material	- sheet steel - hot dip galvanized according to DIN EN ISO 1461
Supply length	- 6000 mm
Technical data	- side height 200 mm - support spacing max. 10.0 m - rungs of C-profile 30x15 perforated, fixed with 16 mm slots open to topside - diagonal rungs for increased lateral stability - threaded joint at flat joint plate
Field of application	- installation on brackets and consoles - see system picture 10

Ordering information

Fixing details

- Use pipe clamps 165J6-A for fixing on brackets.
- Use pipe clamps 16B21-Z1 for fixing on consoles.
- Use bend 165C2-... or vertical bend 165C8-...-A, 165C8-...-B to produce on curves.
- Use tee 165C3-... to produce junctons.
- Use screws 165C1-Z to connect ladders.

Support systems

This chapter contains an overview of the RICO cable support elements for various loads and applications, subdivided into product families.

Table of contents

Page

Support + brackets

Combinations of supports and corresponding brackets within the installation standard, low and medium loads **133**

Combinations of supports and corresponding brackets within the industrial standard, high loads **151**
RICO clamping system with claws and C-profile sections

Brackets + consoles

direct installation on walls and ceilings without the use of supports, low, medium and high loads **167**

Fixing material

Expansion bolts **179**
Corner anchors and anchor bolts
Fixing and jointing pieces
Accessories for luminaire support tray and INSTA tray
Accident prevention with protective end caps

Support systems

RICO-support system consists of supports and brackets for individual installation of cable trays on walls, ceilings or floors.

The RICO program in installation design for low and medium loads contains:

Table of contents page

Supports for loads up to 2.0 kN	
U-profile 50x22: 15A15-... / 16A15-...	134
head plate for screwing: 16A16-K	134
hanging support made of U-profile 50x22, with welded-on head plate: 16A16-...	135
Supports for loads up to 4.0 kN	
U-profile 50x22: 15A15-... / 16A15-...	139
head plate: 16A4-D, 16A4-E	139
hanging support made of 2 U-profiles 50 x 22: 16A10-...	140
U-profile 50x50: 16A13-...	141
head plate: 16A14-K	141
hanging support made of U-profile 50x50, with welded-on head plate: 16A14-...	142
stiffening profile: 16J14-55	144
Supports for loads up to 6.0 kN	
U-profile 60x40: 16A7-...	143
head plate: 16A8-40, connection angle: 16A8-50, stiffening profile: 16J14-64	144
hanging profile made of U-profile 60x40, with welded-on head plate: 16A9-...	145
Brackets for supports	
bracket (load class 0.6 kN): 15B5-..., adapter piece: 15A16-A	136
bracket (load class 1.20 kN): 15B6-...	137
bracket (load class 2.50 kN): 16B7-...	138
suspension bracket for hanging from centre: 15A11-...	146
bracket (load class 0.35 kN): 06B2-...	147
bracket (load class 1.50 kN): 15B3-... / 16B3-...	148
bracket (load class 3.60 kN): 16B2-...	149
RICO-clamping system	
clamping claw: 16A4-13-D, 16A4-13-DA	161
clamping vlaw components: 16A4-13, 16A4-13-Z1, 16A4-13-Z2	162

Supports + brackets

Supports, installation standard

U-profile 15A15-... / 16A15-..., head plate 16A16-K

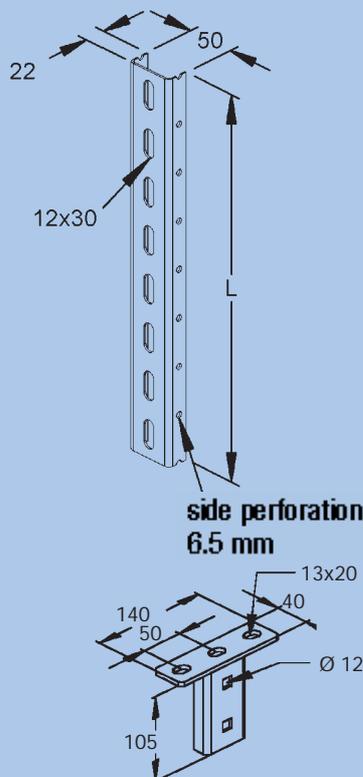

Material	- sheet steel, perforated - continuously hot galvanized according to DIN EN 10327 with side perforation or hot dip galvanized according to DIN EN ISO 1461
Supply length	- 200 to 1200 mm; 2000 and 3000 mm, 6000 mm upon request
Technical data	- U-profile 50x22x2.0; perforation 12x30
Anwendungsbereich	- hanging support in connection with head plate 16A16-K - for use with brackets: 15B5-... for 100 to 400 mm brackets length 15B6-... for 100 to 400 mm brackets length 16B7-... for 100 to 400 mm brackets length

Support systems

RICO-support systems consist of supports and brackets for individual installation of cable trays to walls, ceilings or floors.

The RICO program in industrial design for high loads contains:

Table of contents page

Supports for loads up to 10.0 kN	
H-Support: 16A1-...	152
head plates for screwing, to horizontal ceilings: 16A4-A, 16A4-AQ	153
to slanted ceilings: 16A4-B, 16A4-BQ	154
hanging support, with welded-on head plate: 16A3-...	155
head plate adapter for clamping on: 16A4-0	156
Brackets for supports	
brackets (load class 3.6 kN): 16B1-...	157
brackets (load class 5.0 kN): 16B8-...-W especially for wide span cable trays or wide span cable ladders	158
RICO-Clamping technics	
claws: 16A4-1-D, 16A4-1-DA	159
components for claws: 16A4-1, 16A4-Z1, 16A4-Z2	160
clamping claws: 16A4-13-D, 16A4-13-DA	161
components for clamping claws: 16A4-13, 16A4-13-Z1, 16A4-13-Z2	162
C-rail: 16A4-...-K	163
double C-rail: 16F55-...-A	164
C-rail: 15F2-...-C	165
profile clamp: 15PK6-20	165

C-rail

15
16 F55-...-A

double-C-rail 16F55-4500-A

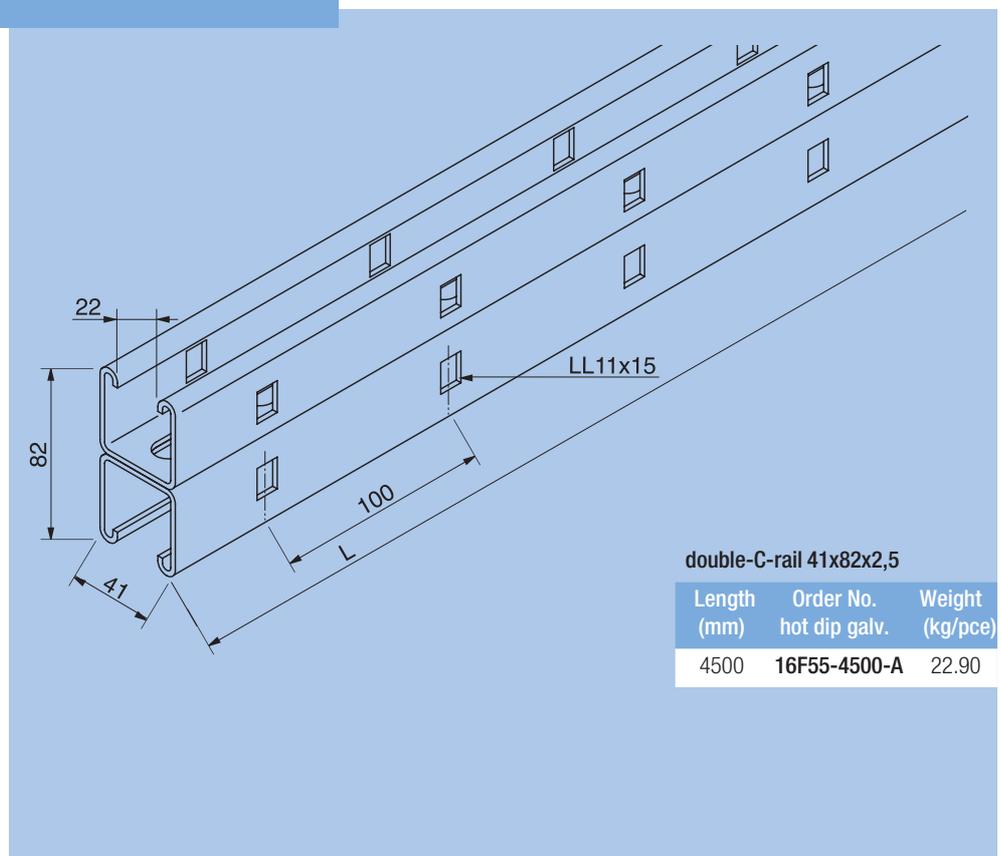

Material	- sheet steel, perforated - hot dip galvanized according to DIN EN ISO 1461
Supply length	- 4500 mm
Technical data	- double C-profile section 41x82x2,5, perforation 13x30, division 50 mm - shear-resistant connection of the individual profiles by means of special rivet after hot dip galvanization (no crevice corrosion)
Field of application	- clamping system for all electrical installations - realisation of clamping head plates and supports in connection with claws

Ordering information

Fixing details

- Use double C-rails if the load capacity of the C-rails 16A4- ... -K is insufficient (for loads and possible projections refer to the diagram)
- For realising connections to steel girders for holding hanging supports or as a crossbeam between girders on site use double C-profile section with claws 16A4-1-DA

Screw 15J4-0612-FK and slide nut 16J16-M6 must be ordered separately.

Belastbarkeit

Support systems

RICO support systems consist of brackets in various load classes or of wall consoles for very heavy loads, for individual installation of cable trays on walls or ceilings.

The RICO program for direct installation on walls or ceilings without the use of supports includes:

Table of contents Page

Bracket and console for wall mounting

central suspender 0,70 (load class 0,70 kN): 16B17-...	168
bracket (load class 1,5 kN): 15A20-... / 16A20-...	169

Support systems

The complete program of expansion bolts, anchor bolts fixing screws for fixing the RICO system components.

Table of contents

Page

Expansion bolt and accessories (drill bits, drive-in punch, mortar press)

expansion bolts, for mounting in reinforced concrete : 15J1-... / 18J1-...	180
expansion bolts, for mounting in masonry building material : 15J1-...	181, 182

Anchor bolts and anchor corners

anchor bolts, for mounting of components on anchor rails: 16J2-...	183
anchor corner, for mounting stanchions and vertical cable ladders on walls and ceilings : 16J3-...	184

Support constructions and jointing pieces

thrust washer: 16J4-...-S, threaded rod: 15J4-..., fixing screws: 16J4-1070, Washers: 16J4-...-S / 16J4-...-SG, hexagonal nuts: 16J4-...-M	185
jointing sleeves: 15J4-..., serrated lock washers: 16J4-...-F	
jointing piece: 16J5-B, straight joints: 16J5-F, 151L02-A / 161L02-A, fixing screws: 16J5-Z	186
hold down clamps: 16J6-A, 163J6-..., pipe clamp: 165J6-A, 16B21-Z1, 16B21-ZR, connection angle: 16J6-C fixing screws: 16J6-..., 16J12-A	187
support bracket: 16J7-A, counter punch 16J23-A, support clamp: 16J21-10, compensating plate: 15J6-... / 16J6-...	188

Installation accessories for luminaire support tray

knotted chain: 15N28-30, replacement chain link: 15N28-01	189
eye bolt: 15N21-...	189, 190
suspension bracket: 15N30-..., threaded sleeve: 15N24, internal-thread expansion bolt and setting tool: 15J1-..., ceiling hook: 15N23	189
trapezoidal-sheet suspension: 15J21-D, fixing screw : 16N21-110	190

Installation accessories for INSTA tray

eye bolts: 15N21-..., ceiling hook: 15N22, 15N23	192
suspension bracket: 15N30-..., knotted chain: 15N28-30, replacement chain link: 15N28-01 trapezoidal-sheet suspension: 15J21-D, fixing screw: 16N21-110	191

Accident prevention

protective end caps: 15J8-..., 15A16-S, edge protection: 15V13-A / 15V13-B	193
protective end caps: 153J8-... / 154J8-...	194
cold galvanizing set: 15J19-A, zinc spray: 15J19-B	194

for installation in reinforced concrete

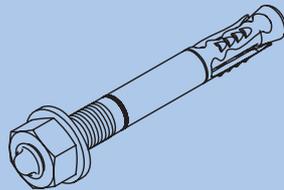

Ordering information

Fixing details

All RICO expansion bolts are in compliance with Building Construction Standards.

Suitable expansion bolts are available for every type of fixing (zone subject to tensile forces, uncracked concrete, masonry building material).

Our specialists will be pleased to advise you on any questions you may have.

16 L3-...-L

vertical cable ladders kits 16L3-...-C, 16L3-...-L

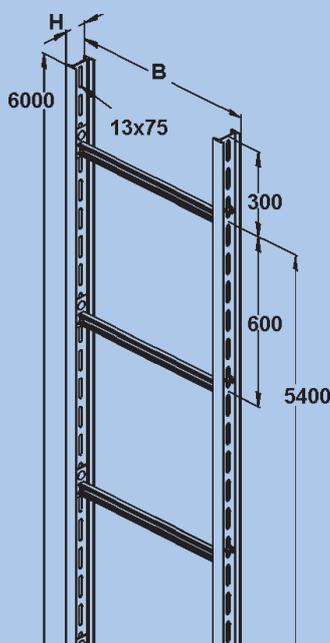

Material	- hot rolled profile I 80, sheet steel - hot dip galvanized according to DIN EN ISO 1461
Supply length	- 6000 mm
Technical data	- industrial design, only available as kit - side of hot rolled profile I 80, rungs of C-profile 40x22 or L-profile 40x40 - rung spacing 600 mm (other rung spacings possible)
Field of application	- wall mounting - for free standing arrangement in spaces up to 6.0 m in height - covers on request

Ordering information

Fixing details

- Connect vertical cable ladders with jointing piece 16J5-B.
- Order single rungs for changed rung spacing: 16L13-...-C (40x22) 16L13-...-L (L 40x50).
- Fix vertical cable ladders to walls with anchor block 16J3-B.
- Fix vertical cable ladders to ceiling or wall with anchor corner 16J3-D1 or head plate 16A4-... .
- Use steel expansion bolt 15J1-... for fixing.

hanging support 17A16-..., 18A16-..., with welded-on head plate

Material	- sheet steel, perforated - stainless steel, material: 1.4301 (V2A) or 1.4571 (V4A)
Supply length	- 204 to 1204 mm, total length = length of U-profile incl. head plate
Technical data	- hanging support made of U-profile 50x22x2,0, perforation 12x30, with welded on head plate
Field of application	- hanging support - for use with brackets: 17B6-.../18B6-... bei 100 to 400 mm bracket length 17B7-.../18B7-... bei 100 to 400 mm bracket length (Pay attention to the load)

Ordering information

Fixing details

- Fix support to the ceiling with steel expansion bolt 18J1-... or anchor bolts 17J2-... or with claws 19A4-1-... at the steel girder.
- Fix the bracket 17B6-.../18B6-... and 17B7-.../18B7-... with the screw M10x25 to the support.
- Cover profile end with protective end cap 15A16-S.
- For static reasons and to enable a trouble-free setting-up of the protective end cap, the bracket should be fixed at intervals of $x = 50$ mm above the end

straight joint, screwless 17S13-E/17S14-E

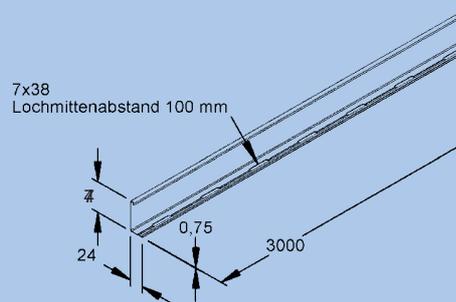

Material
Field of application

- stainless steel, material: 1.4301 (V2A)
- divider strip for subdividing the tray for different cable types
- joint for divider strip for the mechanical, electrical and at the straight for joints of the divider strips at length side
- straight joint for producing lengthwise joints of trellis trays

Ordering information

Montagehinweise

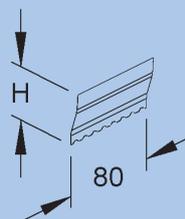

- straight joint for screwless connection, the only tool you need is a screwdriver.
- The continuously perforated fold of the divider strip grants a stepless installation.
- The connection of the divider strips effects by clip in of the joints for divider strips at the straight.

divider strip

universal joint 17E11-A / 18E11-A joint for divider strip 17W13-V / 171W13-V divider strip 17W13-A / 171W13-A / 181W13-A

Material	- stainless steel, material: 1.4301 (V2A)
Technical data	- suitable for all tray widths from 100 mm to 600 mm - delivery incl. fixing screws
Field of application	- divider strip for subdividing the cable tray for different cable types - Universal joint is usable as T-joint, bendable joint hinge piece and as joint cover

Ordering information

Fixing details

universal joint

→ There exists a lot of possibilities to use this universal joint. This allows an installation without molded components or the usage for extraordinary installations.

divider strip

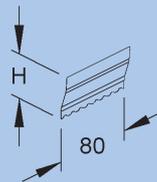

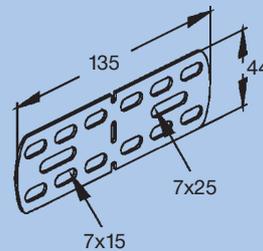

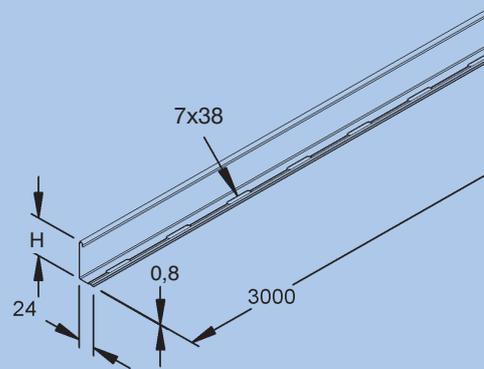

→ The continuously perforated fold of the divider strip grants a stepless installation. Central hole spacing of the oblong holes 7 x 38 mm is 100 mm.

joint for divider strip

→ for mechanical, electrical and lengthwise connection of the divider strips at the straight.

→ The connection of the divider strip effects by clip in the joints for divider strips at the straight.

Material	- stainless steel, material: 1.4301 (V2A)
Technical data	- side height 60 mm - suitable for all tray widths from 100 mm to 600 mm - delivery incl. fixing screws
Field of application	- joining piece to produce straight, angular, upward or downward tray connections. - Joint cover plate for covering the cutting edges at tray straights

- stainless steel, material: 1.4301 (V2A)
- side height 60 mm
- suitable for all tray widths from 100 mm to 600 mm
- delivery incl. fixing screws
- joining piece to produce straight, angular, upward or downward tray connections.
- Joint cover plate for covering the cutting edges at tray straights

Ordering information

Fixing details

- Mount joining piece to or push it into tray ends.
- Fasten joining piece and sides of the tray with 2 screws 17J6-B.

straight joint

- Cover cutting edges at straight with joint cover plate 17W7-...

bendable joint

- Make a mitre cut for large changes of direction (max. 90°).

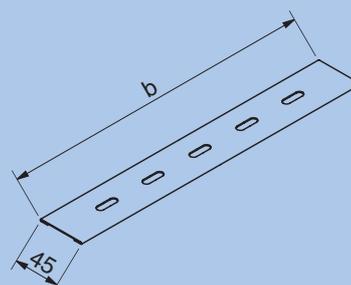

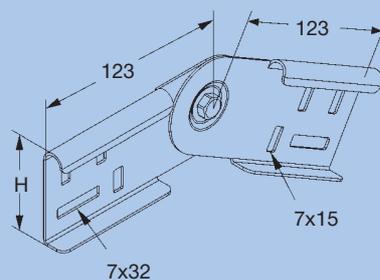

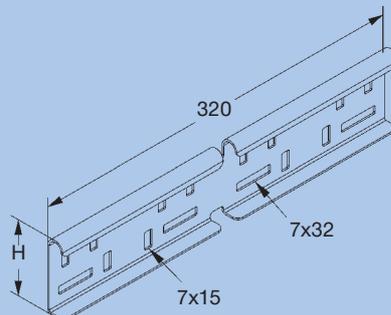

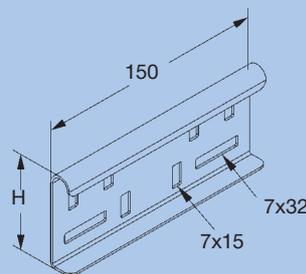

hinge piece

- Insert cable protecting plate 17W11-... at upper break point.
- Cover cutting edges with edge protection 15V13-A.

joint cover plate

- Use bolts to screw the joint cover plate 17W7-...

corner 171W17-B / 181W17-B

Material	- stainless steel, material: 1.4301 (V2A) or 1.4571 (V4A)
Technical data	- side height 60 mm - suitable for all tray widths from 100 mm to 600 mm - integrated joint with pre-perforated connection holes for an easy installation
Field of application	- to produce horizontal 90°-curves and 90°-junctions

Ordering information

Fixing details

bend

- Place bend on tray ends.
- Fasten bend side to tray with screws 17J6-B

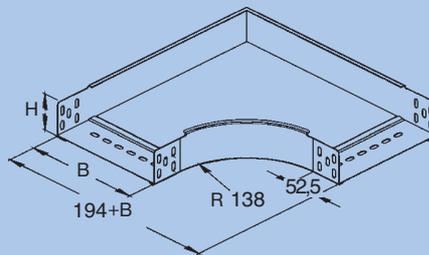

extension tee

- Cut out tray side (length of cut out = width of tee + 280mm)
- Deburr cut edges.
- Using pliers, fold over tab ends of tray on both sides and clamp.
- Place extension tee over the cut out and fasten to tray sides with screws 17J6-B.
- Fasten floor plates with 3 screws 17J6-B .

corner

- Cut out inside of the trays (length of cut out = widths of tray + 145 mm).
- Deburr cut edges.
- Using pliers, fold over tab ends of tray on both sides and clamp.
- Place corner on the tray ends overlapping in the 90°-angle.
- Screw trays with 2 screws 17J6-B on side.
- Screw the floors of the corner and of the tray with screws 17J6-B .

Cable ladders

light design 60mm side height 171C1-...-L63 / 181C1-...-L63	278
---	-----

Molded components for cable ladders

bend: 171C2-...-A	280
expansion tee: 171C15-...	280
crossing: 171C20-...	281
corner 181C20-...-A	281

Jointing pieces for cable ladders

straight joint/ bendable joint/ high piece 171E11-.../ 181E11-...	282
screw: 17J6-P / 18J6-P	282
hold down clamp: 17J6-A / 18J6-A	282

Accessory for cable ladders

divider strip: 170C13-A	279
divider strip fixing clamp: 17C13-M	279
flat corner: 17C7-400-A	279
support corner: 17U6-A, screw: 17C8-Z	279
exit plate: 17C8-...-B	281
protective end cap (pair): 151J8-C	285
wall connection corner: 17J3-G / 18J3-G / 17J3-L	285

Covers

covers for ladders, with or without locking device: 17W12-...	283
covers for molded components: 17C12-...-A / 17C12-...-AR / 17C12-...-T / 17C12-...-TR	284

Accessory for covers

locking device: 17N12-V	283
fixing clip: 171W12-K	283

Stainless steel

Cable ladders

18
1C1-...-L63

cable ladder 171C1-...-L63 with side thickness 1.5 mm

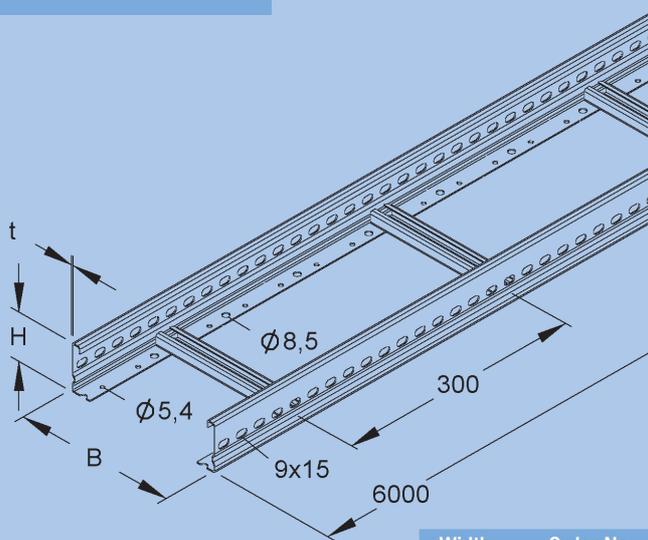

Material	- stainless steel, material: 1.4301 (V2A) or 1.4571 (V4A), sides perforated
Supply length	- 6000 mm, 3000 mm deliverable on request - cable ladders are delivered folded to reduce transport volume
Technical data	- side height 60 mm, side thickness 1.5 mm - standard support width 1.5 m - rungs made of C-profile 25x15 perforated with slot 11 mm mounted open to topside.
Field of application	- installation on brackets and consoles

Ordering information

Fixing details

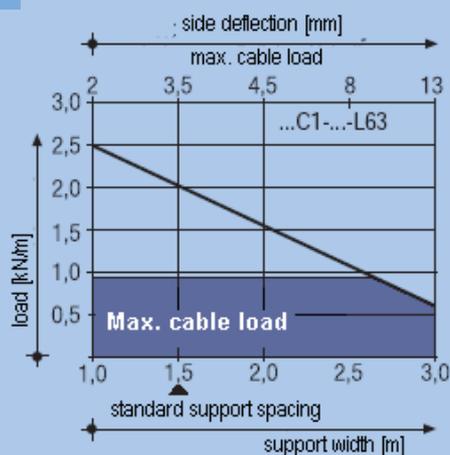

- Use hold down clamp 17J6-A / 18J6-A when fixing to brackets.
- Use bend 171C2-... to produce curves.
- Use extension tee 151C15-... / 161C15-... to produce junctions.
- Use jointing piece 171E11-... to connect trays.

Fixing material	page
hold down clamp 17J6-A/18J6-A	282
protective end cap for rung 15J8-S25	194

Load diagram

divider strip 170C13-A, support corner 17U6-A,
flat corner 17C7-400-A, fixing screws 17C8-Z,
divider strip fixing clamp 17C13-M

Material	- stainless steel, material: 1.4301 (V2A)
Technical data	- suitable for all tray widths from 200 mm to 600 mm
Field of application	- divider strip for subdividing the cable ladders for different cable trays e. g. high voltage and low voltage current - support corner for fixing ladders on brackets with vertical change of direction - flat corner for later addition of exits without sawing

17 170C13-A

17 17U6-A

17 17C7-400-A

17 17C13-M

Ordering information

Fixing details

→ divider strip fixing clamp for fixing divider strips to cable ladders with rungs of 11 mm slot width.

divider strip

Length (mm)	Order No. stainl. steel	Weight (kg/pce)

Stainless steel

Molded components for cable ladders

17 1C2-...-A

17 1C15-...

bend 171C2-...-A, extension tee 171C15-...

Material	- stainless steel, material: 1.4301 (V2A), sides perforated
Technical data	- side height 60 mm - suitable for all ladder widths from 200 mm to 600 mm
Field of application	- bend to produce horizontal 90°-curves - extension tee to produce 90°-junctions

Ordering information

Fixing details

bend

→ Connect sides of bend and ladder with straight joint 171E11-A and screws 17J6-P.

extension tee

→ Cut out ladder sides. (width of extension tee + 1280 mm).

→ Bore out the rung's rivets and separate with chisel.

→ insert extension tee.

→ Connect sides of tee and ladder with straight joint 171E11-A and screws 17J6-P.

→ Fasten loose rungs of ladders with fixing screws at support side of the extension tee.

17J6-1025 (M10x25)

Stainless steel

Vertical cable ladder components

max. load

17 A7-4500

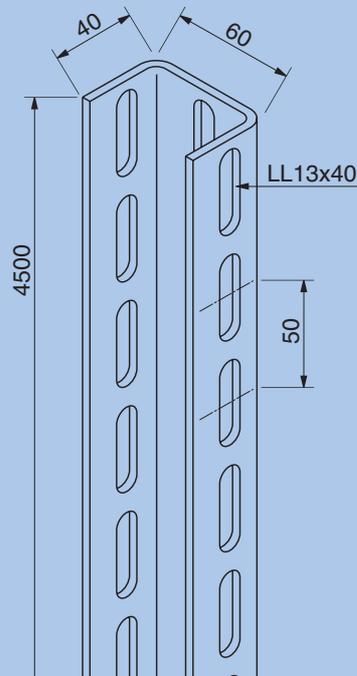

17 L12-...-C

U-profile 17A7-4500, C-rung 17L12-...-C

Material	- stainless steel, material: 1.4301 (V2A)
Technical data	- heavy design - sides of U-profile 60x40, rungs of C-profile 40x22 - rungs incl. fixing screws
Field of application	- to produce vertical cable ladders like 171L03-...-C - wall mounting - free standing arrangement in rooms up to 4.5 m height

locking device: 17N13-V	320
fixing clip: 173W12-KW	320

Stainless steel

Wide span cable tray 105

17 → 3Y2-...

wide span cable tray 173Y2-..., perforated

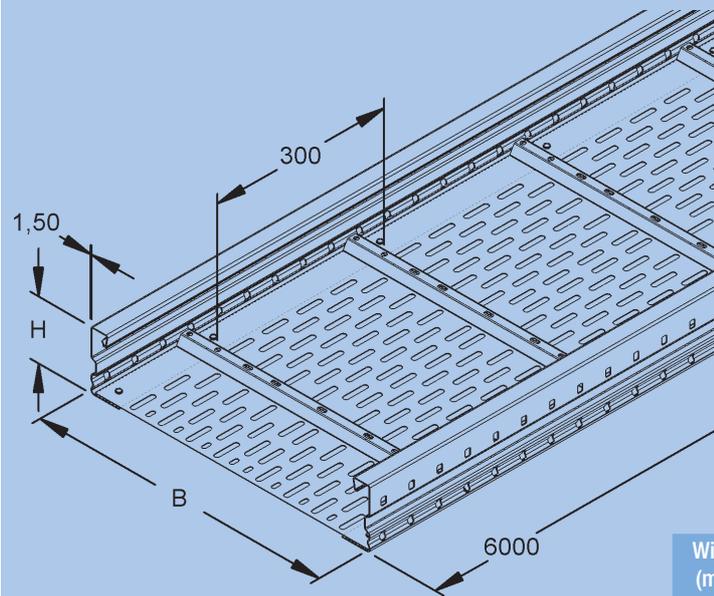

Material	- stainless steel, material: 1.4301 (V2A), perforated
Supply length	- 6000 mm
Technical data	- side height H=105 mm, side thickness 1.5 mm, support width max. 7 m - continuous perforation of the sides for jointing pieces - suitable for high loads under large support spacing - high degree of cross stability
Field of application	- installation on brackets and consoles

Ordering information

Fixing details

- Use screws 17J6-P for fixing to brackets.
- Use bend 173Y3-... to produce curves.
- Use extension tee 173Y15-... tee 173Y4-... to produce junctions.
- Use joint 173C9-... to connect trays.

Fixing material	page
screw 17J6-P	282
protective end cap for crimp 15J8-WSR	194

Width (mm)	Order No. stainl. steel	Weight (kg/pce)
200	173Y2-200	38.60
300	173Y2-300	42.50
400	173Y2-400	46.40
500	173Y2-500	50.30
600	173Y2-600	54.60

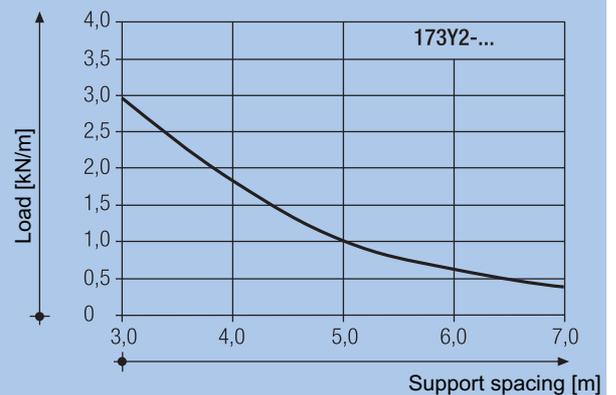

Load diagram

It is important to pay attention to the specified max. loading of supports, brackets and fixing elements!

4 Felder (L) + 2 verkürzte Endfelder (0,8 x L)

Joining pieces 173C9-..., joint cover plate 17W8-...

17 → 3C9-...

17 → W8-...

Material	- stainless steel, material: 1.4301 (V2A)
Technical data	- side height H=105 mm - suitable for all tray widths from 200 mm to 600 mm - delivery incl. fixing screws
Field of application	- to produce straight, bendable, upward or downward trays - joint cover plate for a better stability of wide span cable trays

Ordering information

Fixing details

- Mount joining pieces to or push it into tray ends.
- Fasten joining pieces and tray sides with screws 17J6-P.

straight joint

- Cover cutting edge on straight joint with joint cover plate 17W8-...

bendable joint

- Make a mitre cut for large changes of direction (max. 90°).

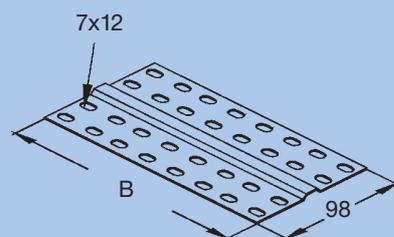

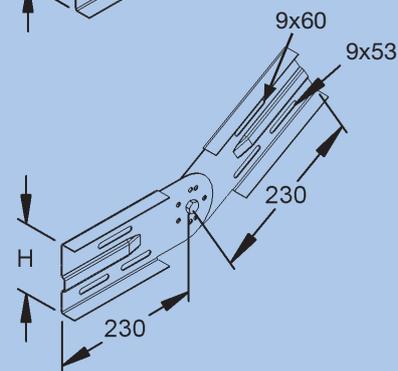

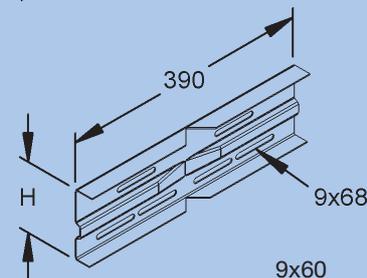

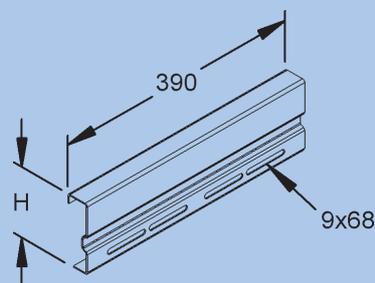

hinge piece

- Insert cable protecting plate 15W11-... / 16W11-... at upper break point.
- Cover cut edge with edge protection 15V13-A.

joint cover plate

- Place joint cover plate 17W8-... on the tray connection and fasten clamping lugs.

Accessory for wide span cable tray 105

17 → 2W13-...

17 → W11-...

17 → C13-K

cable protecting plate 17W11-..., divider strip 172W13-A joint for divider strip 172W13-V, divider strip fixing clamp 17C13-K

Material	- stainless steel, material: 1.4301 (V2A)
Technical data	- suitable for all tray widths from 200 mm to 600 mm - delivery incl. fixing screws
Field of application	- cable protecting plate for protecting cables at upward or downward connection of trays. - divider strip for subdividing the cable trays for different cable types, e.g. high voltage and low voltage

Ordering information

Fixing details

divider strip

→ Continuously perforated fold grants a stepless installation

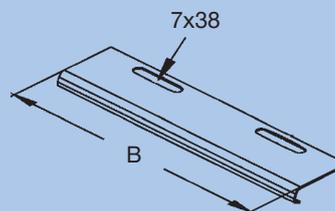

joint for divider strip

→ for the mechanical, electrical and lengthwise connection of the divider strip.

→ The connection of the divider strip effects by clip in of the joints for divider strips at the straight.

divider strip fixing clamp

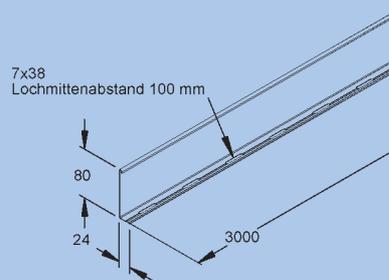

→ for fixing divider strips in trapezoidal crimps of the wide span trays and of wide span ladders with rungs with slots of 16 mm.

cable protecting plate

Length (mm)	Order No. stainl. steel	Weight (kg/pce)
190	17W11-200	0.10

17 → 3Y4-...

17 → 3Y20-...

corner 173W17-BW, tee 173Y4-..., crossing 173Y20-...

Material	- stainless steel, material: 1.4301 (V2A), perforated
Technical data	- side height 105 mm geeignet für alle Rinnenbreiten von 200 mm bis 600 mm
Field of application	- tee to produce horizontal 90° curves. - crossings to produce horizontal 90° junctions.

Ordering information

Fixing details

corner

- Cut out tray inner sides (length of cut out = tray width + 355 mm).
- Shorten ground plates, that there are no beads in the area of the overlapping cable tray grounds.
- Deburr cut edges.
- Put on the corner on the overlapping 90° corners tray ends.
- Fasten trays lateral with 2 screws 17J6-P.
- Fasten grounds of the corners and trays with screws 17J6-P.

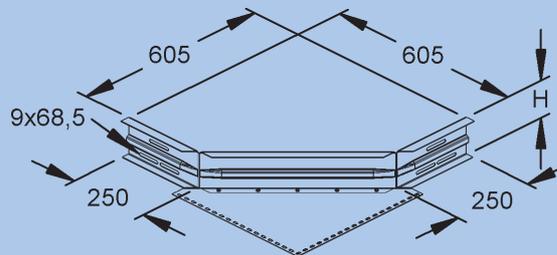

tee

- Connect sides of tee and tray with straight joints 173C9-A.
- Fasten sides and jointing piece with screws 17J6-P.

crossing

- Connect sides of crossing and tray with straight joints 173C9-A.
- Fasten sides and jointing pieces with screws 17J6-P.

fixing clip: 173W12-KW	320

Stainless steel

Wide span ladder 105

17 3C1-...-S

wide span cable ladder 173C1-...-S

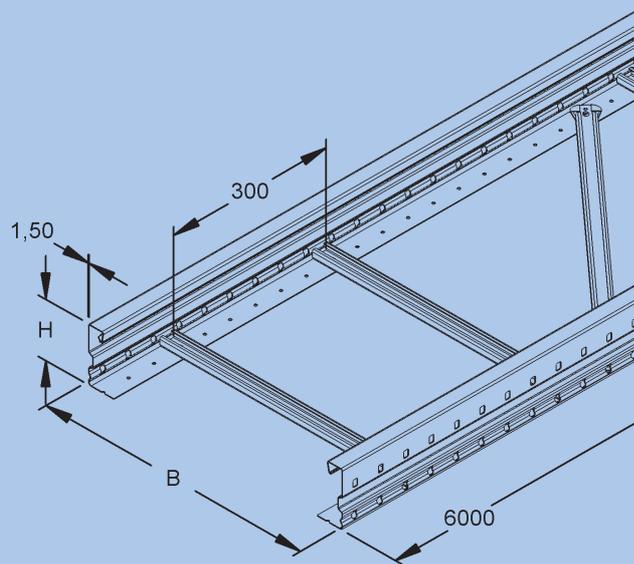

Material	- stainless steel, material: 1.4301 (V2A)
Supply length	- 6000 mm
Technical data	- side height 105 mm - support width max. 7.0 m, side height 1.5 mm - continuous side perforation for connecting parts - rungs of C-profile 30x15 perforated with slot 16 mm open to topside
Field of application	- 4 diagonal rungs for higher lateral stability - installation on brackets and consoles

Ordering information

Fixing details

- Use hold down clamps 163J6-A for fixing to brackets.
- Use bend 173C2-...-S to produce curves.
- Use extension tee 173C15-...-S or tee 173C15-...-S to produce junctions.
- Use jointing piece 173C9-... to connect ladders.

Accessory for wide span cable ladder 105

17 → 2C13-SA

17 → 2W13-V

17 → C13-K

divider strip 172C13-SA, joint for divider strip 172W13-V, divider strip fixing clamp 17C13-K

Material	- stainless steel, material: 1.4301 (V2A)
Technical data	- suitable for all ladder widths from 200 mm to 600 mm - delivery incl. fixing screws
Field of application	- divider strip for subdividing cable ladders for different cable types, e. g. high voltage or low voltage current

Ordering information

Fixing details

divider strip

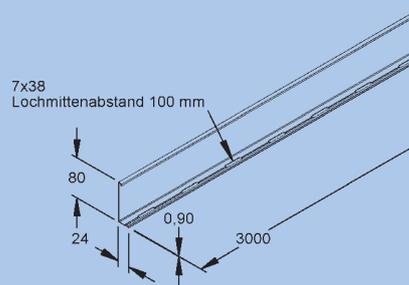

→ Continuous perforated fold effects a stepless installation. Centric hole spacing of the oblong holes 7 x 38 mm is 100 mm.

joint for divider strip

- for the mechanical, electrical and at the straight lengthwise connection of the divider strips.
- The connection of the divider strips effects by clip in the joint for divider strip at the straight.

divider strip fixing clamp

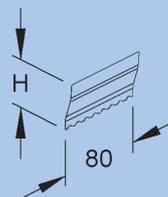

→ for fixing divider strips in trapezoidal crimps of the wide span trays and of wide span ladders with rungs with slots of 16 mm.

divider strip

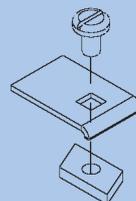

Length (mm)	Order No. stainl. steel	Weight (kg/pce)

16 ▶ A4-1-...

clamping claws 16A4-13-D, 16A4-13-DA, claws 16A4-1-D, 16A4-1-DA

Material

- annealed cast iron, steel
- hot dip galvanized according to DIN EN ISO 1461

Field of application

- clamping system for support constructions on steel girders on site
- connection of the profile rails of the RICOSTRUT®-program to suspensions for all kinds of media ladders

Ordering information

Fixing details

clamping claws

Flange width 60 mm - 100 mm

- Use clamping claws 16A4-13-D to fasten support structures directly.

Flange widths > 100 mm

- Use clamping claws 16A4-13-DA together with C-profile section 16F2-...-L or 16A4-...-K to fasten support structures of all types.

claws

Flange widths 60 mm - 100 mm

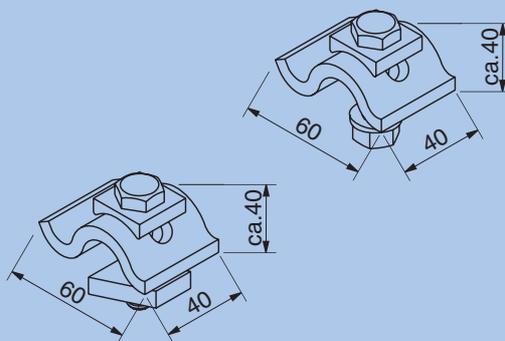

- Use claws 16A4-1-D to fasten support structures directly.

Flange widths > 100 mm

- Use claws 16A4-1-DA together with C-profile rails 16A4-...-K to fasten hanging supports of all types.

yoke clip with steel-thrust trough for C-profile 23 x 11

15
16 BS23-...

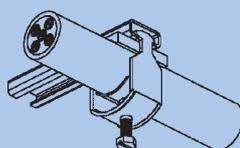

Material

- sheet steel
- hot dip galvanized according to DIN EN ISO 1461

Technische Daten

- 16BS23-... suitable for profile rails with slot width 11–12 mm
- with steel-thrust trough (sendzimir galvanized)
- counter and double troughs must be ordered separately.

BSFK-...

clips for flat iron with plastic-thrust trough flat iron 4–12 mm

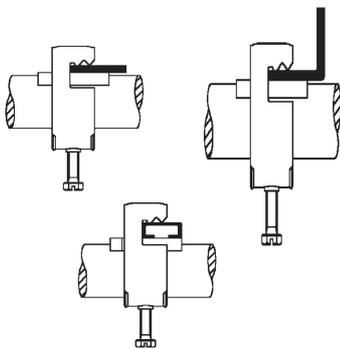

Material

- sheet steel
- hot dip galvanized according to DIN EN ISO 1461

Technical data

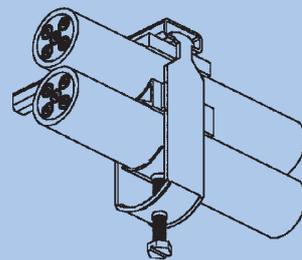

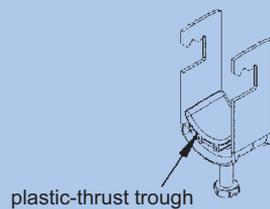

- 16BSFK-... suitable for flat iron with a thickness of 4-12 mm
- with plastic-thrust trough (halogen free)
- counter and double troughs must be ordered separately

Ordering information

Fixing details

- **Clips type BSF...**
can also be mounted to existing steel girders (max. flange width 12mm)
The spoke clamp foot with strengthened bearing edge in the screw axis safeguards - a secure support.
- This clamps can be used on ordinary cable lines as well.

clips for flat iron with plastic-thrust trough flat iron 4–12 mm

15

16

BSFK-...

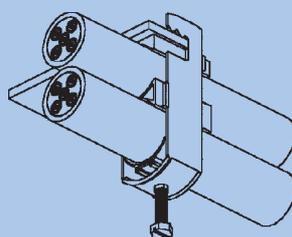

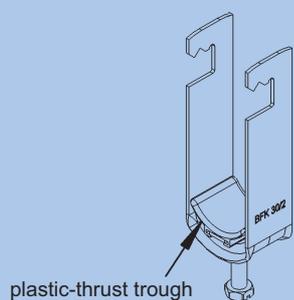

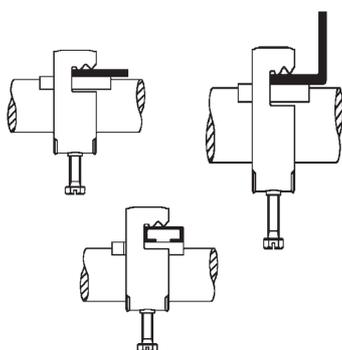

Material

- sheet steel
- hot dip galvanized according to DIN EN ISO 1461

Technical data

- 16BSFK-... suitable for flat iron with a thickness of 4–12 mm
- with plastic-thrust trough (free of halogen)
- counter and double trough must be ordered separately

Ordering information

2	46–50	16BSFK-50-2	0.152	50

Fixing details

→ Clips type BSF...

can also be mounted to existing steel girders (max. flange width 12mm)
The spoke clamp foot with strengthened bearing edge in the screw axis safeguards - a secure support.

→ This clamps can be used on ordinary cable lines as well.

BSW-...

clips for corner iron with steel-thrust trough corner iron 40 x 40 mm, thickness 4–6 mm

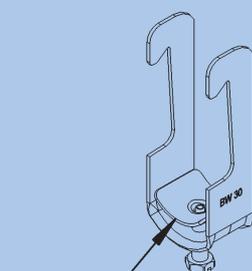

Material

- sheet steel
- hot dip galvanized according to DIN EN ISO 1461

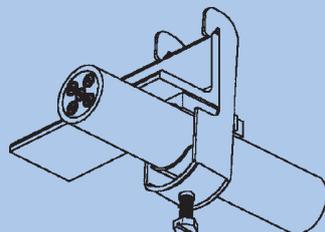

Technical data

- 16BSW-... suitable for corner iron 40 x 40 mm, thickness 4–6 mm
- with steel-thrust trough (sendzimir galvanized)
- counter and double troughs must be ordered separately

Cable protection tubes

RICO cable protection tubes for laying cable in places where the usual cable support constructions cannot be used because of special technical requirements.

Table of contents	Page
-------------------	------

Cable protection tube Ø 30 mm + accessory	372
---	-----

Cable protection tube Ø 60 mm + accessory	377
---	-----

The background of the page is a light gray, semi-transparent image showing various cable protection tubes and accessories. A large, curved tube is the central focus, with several straight tubes of different sizes and metal mounting brackets scattered around it. The items are arranged on a light surface, creating soft shadows.

System overview
Marine
cable ladder

Marine cable ladders

This cable ladder was developed especially for the shipbuilding. Furthermore it is applicable in the industry and in tunneling, nuclear power plants and plant construction.

By the slotted rung design the cables can be fixed fast and easily with cable ties.

The new continuous perforation of the sides makes it possible to screw the wall connection pieces steplessly and without drilling. The cable ladder is flexibel in application and can be used for the vertical cable run as well as for the horizontal one.

straight joint 160P11-A, mushroom head screw 16J6-0825

16 OP11-A

Material	<ul style="list-style-type: none"> - sheet steel - hot dip galvanized according to DIN EN ISO 1461
Technical data	<ul style="list-style-type: none"> - straight joint for a form fitting lengthwise aligned connection - demand, 2 pieces per joint place - potential equalisation by screwing the sides
Field of application	<ul style="list-style-type: none"> - suitable for marine cable ladders

Ordering information

straight joint

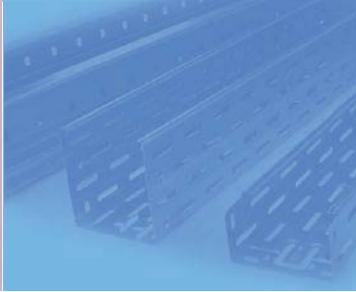

Height (mm)	Order No. hot dip galv.	Weight (kg/pce)
41	160P11-A	0.27

incl. 2 screws 16J6-P (M8x16)

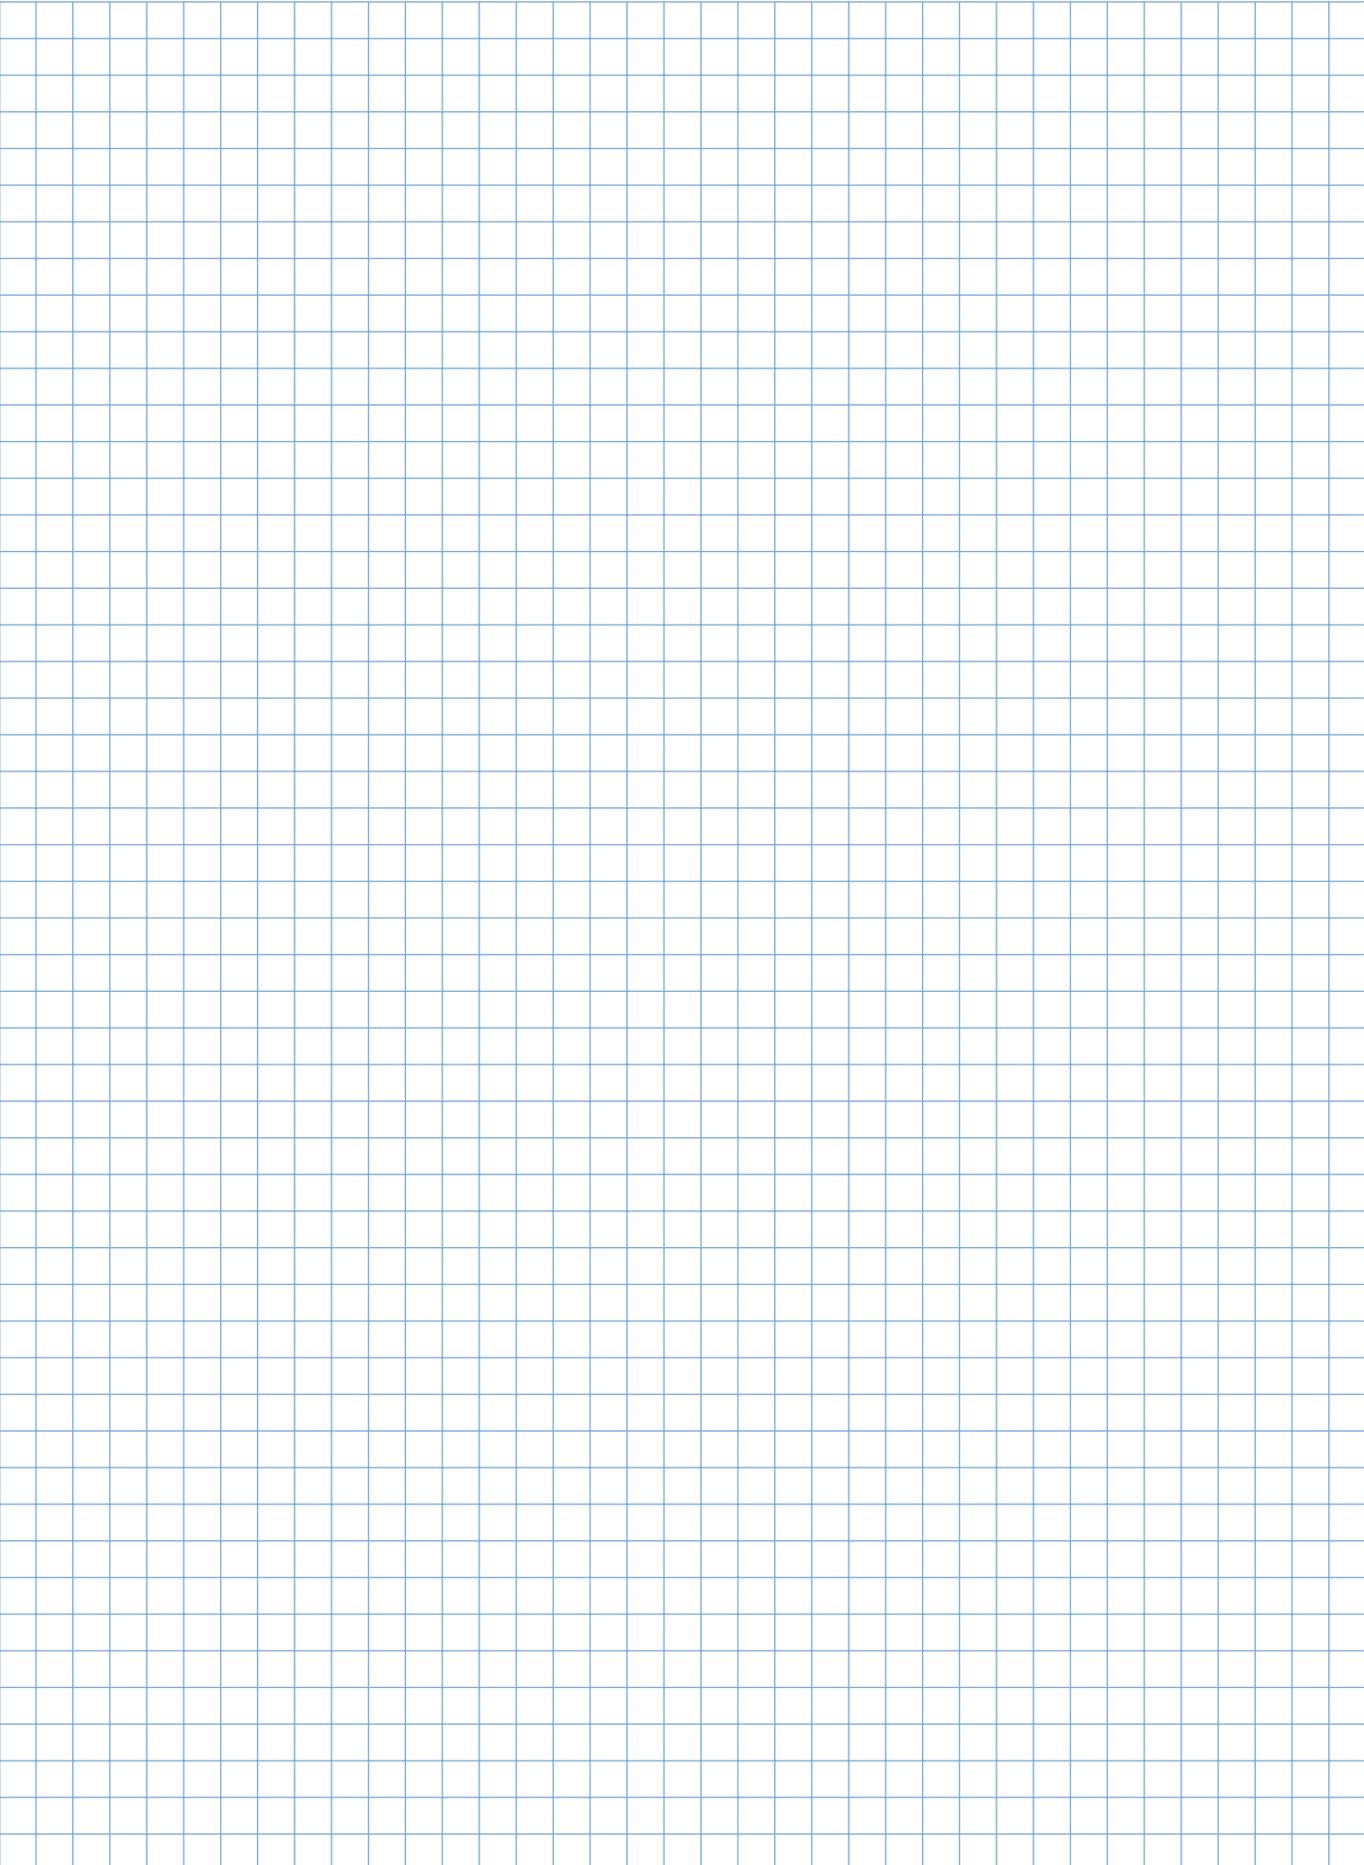

mushroom head screw with flange nut

Order No. hot dip galv.	Weight (kg/pce)
16J6-0825	0.03

Index

A Supports and profiles, RICO clamping technology

15A10-S	protective end cap for double U-profile 50x22, colour yellow	193
15A11-...	suspension bracket, width 100mm to 300mm	146
15A15-.../16A15-...	U-profile 50x22, without head plate, length 200 mm to 3000 mm	134, 139
15A16-A	adapter piece	136
15A16-S	protective end cap for U-profile 50x22, colour yellow	193
15A20-.../16A20-...	bracket for wall mounting, length 100 mm to 400 mm	169
16A1-...	H-support I80, without head plate, length 200 mm to 6000 mm	152, 209
16A10-...	hanging support with welded-on head plate, length 200 mm to 1500 mm	140
16A13-...	U-profile 50x50, without head plate, length 200 mm to 6000 mm	141
16A14-...	hanging support U50x50, with screwed-on head plate, length 200 to 2000 mm.	142
16A14-K	head plate for U-profile 50x50	141
16A16-...	hanging support U50x22, with screwed-on head plate	135
16A16-K	head plate for U-profile 50x22	134
16A3-...	hanging support I80, with welded-on head plate, length 200 mm to 2000 mm	155
16A4-...-K	C-profile rail 41x41, perforated, length 200 mm to 3000 mm	163
16A4-O	head plate adapter for high loads	156
16A4-1	claw	160
16A4-1-D	claw	159, 338
16A4-1-DA	claw	159, 338
16A4-13	clamping claw	162
16A4-13-D	clamping claw	161, 338
16A4-13-DA	clamping claw	161, 338
16A4-13-Z1	screw M10x50 for clamping claw 16A4-13-DA	162
16A4-13-Z2	screw M10x50 for clamping claw 16A4-13-D	162
16A4-A	head plate for H-support I80, for horizontal ceilings	153
16A4-AQ	head plate for H-support I80, for horizontal ceilings	153
16A4-B	head plate for H-support I80, for slanted ceilings	154
16A4-BQ	head plate for H-support I80, for slanted ceilings	154
16A4-D	screwed head plate vertical for U-profile 15A15-.../16A15-...	139
16A4-E	screwed head plate for U-profile 15A15-.../16A15-...	139
16A4-Z1	screw M12x65 for claw 16A4-1-DA	160
16A4-Z2	screw M12x75 for claw 16A4-1-D	160
16A7-...	U-profile 60x40, without head plate, length 200 mm to 4500 mm	143, 207
16A8-40	head plate for U-profile 60x40	144
16A8-50	connecting angle for U-profile 60x40	144
16A9-...	hanging support U60x40, with welded-on head plate, length 200 mm to 2000 mm	145
17A10-...	hanging support with welded-on head plate, stainless steel, length 200 mm to 1000 mm	224
17A14-W...	profile clamp, stainless steel, 5-39mm flange width	233
17A15-...	U-profile 50x22, stainless steel, without head plate, length 3000 mm or 6000 mm	225
17A15-V	splice plate, stainless steel	226
17A16-...	hanging support with welded-on head plate, stainless steel, length 200 mm to 1200 mm	222
17A16-K	head plate, stainless steel, for U-profile 50x22	226
17A30-3000	U-profile 100x22 stainless steel	227
17A30-V	splice plate, stainless steel	227
17A4-...-K	C-profile rail 41x41, perforated, stainless steel, length 200 mm to 3000 mm	232
17A4-C	head plate, stainless steel	226
17A4-D	head plate, stainless steel, U-profile 15A15-.../16A15-...	226
17A4-E	head plate, stainless steel, U-profile 15A15-.../16A15-...	226
17A5-E	head plate, stainless steel	227
17A5-K	head plate, stainless steel	228
17A5-P	head plate, stainless steel	228
17A7-...	U-profile 60x40, stainless steel, without head plate, length 200 mm to 4500 mm	193, 230, 292
17A8-40	head plate for U-profile 60x40, stainless steel	231
17A9-...	hanging support U60x40, stainless steel, with welded-on head plate, length 200 mm to 2000 mm	229
18A10-...	hanging support with welded-on head plate, stainless steel, length 200 mm to 600 mm	224
18A15-...	U-profile 50x22, stainless steel, without head plate, length 3000 mm	225
18A15-V	splice plate, stainless steel	226
18A16-...	hanging support with welded-on head plate, stainless steel, length 200 mm to 500 mm	222
18A16-K	head plate, stainless steel, for U-profile 50x22	226
18A4-D	head plate, stainless steel	226
19A4-1-D	claw, plastic-coated	239
19A4-1-DA	claw, plastic-coated	239

B Brackets and consoles

06B2-.....	bracket for support and wall mounting, length 100 mm to 300 mm.	147
07B2-.....	bracket for support and wall mounting, stainless steel, length 100 mm to 300 mm	218
15B18-.../ 16B18-.....	support console, width 100 mm to 300 mm.	170
15B18-D	distance piece for support console for installation on walls and ceilings	170
15B3-.../ 16B3-	bracket, support and wall mounting, length 100 mm to 600 mm.	148, 172
15B5-.....	bracket for hanging support, length 100 mm to 400 mm	136
15B6-.....	bracket for hanging support, length 100 mm to 400 mm	137
16B1-.....	bracket for H-support I80, length 100 mm to 600 mm	157
16B1-Z.....	accessory for bracket	157, 331
16B13-.....	bracket, adjustable for slopes, wall mounting, length 350 mm to 700 mm.	171
16B17-.....	central suspension, width 100 mm to 400 mm	168
16B2-.....	bracket, support and wall mounting, length 100 mm to 700 mm.	149, 173
16B21-.....	console, wall mounting, length 200 mm to 1000 mm, especially for wide span systems.	175
16B22-.....	wall bracket, length 200 mm to 1000 mm.	175
16B27	tube bracket adapter 3/4"	176
16B34	tube bracket adapter 1"	176
16B43	tube bracket adapter 1 1/4"	176
16B49	tube bracket adapter 1 1/2"	176
16B7-.....	bracket for hanging support, length, length 100 mm to 600 mm	138
16B8-...-W	bracket for hanging support I80, length 250 mm to 1000 mm.	158
16B9-...-W	bracket, wall mounting, length 250 mm bis 1000 mm, especially for wide span systems	174
17B2-.....	bracket, stainless steel, support or wall mounting, length 100 mm to 1000 mm.	220
17B3-.....	bracket, stainless steel, support and wall mounting, length 100 mm to 300 mm.	219
17B6-.....	bracket, stainless steel, support mounting, length 100 mm to 400 mm	223
17B7-.....	bracket, stainless steel, support mounting, length 100 mm to 600 mm	225
17B9-...-W	bracket, stainless steel, support and wall mounting, length 200 mm to 1000 mm.	221
18B2-.....	bracket, stainless steel, support and wall mounting, length 100 mm to 600 mm	220
18B3-.....	bracket, V4A-stainless steel, support and wall mounting, length 100 mm to 400 mm.	219
18B6-.....	bracket, support mounting, length 100 mm to 400 mm	223
18B7-.....	bracket, stainless steel, support mounting, length 100 mm to 400 mm	225

BS Cable clips

16BS23-.....	yoke clip with steel-thrust trough for C-profile 23x11	347, 348
16BS30-.....	yoke clip with steel-thrust trough for C-profile 30x15.	344, 345
16BS40-.....	Universal clip with steel-thrust trough for C-profile 40x22 or 41x41.	350, 351
16BSF-.....	clip for flat iron 4 - 12 mm, with steel-thrust trough	354, 355
16BSFK-.....	clip for flat iron 4 - 12 mm, with plastic-thrust trough	356, 357
16BSK23-.....	yoke clip with plastic-thrust trough for C-profile 23x11.	349
16BSK30-.....	yoke clip with plastic-thrust trough for C-profile 30x15.	346
16BSK40-.....	Universal clip with plastic-thrust trough for C-profile 40x22 or 41x41	352, 353
16BSW-.....	clip for corner iron 40x40, with steel-thrust trough.	358, 359
16BSWK-.....	clip for corner iron 40x40, with plastic-thrust trough.	360
17BS30-.....	yoke clip of stainless steel for C-profile 30x15.	361
17BS40-.....	Universal clip of stainless steel for C-profile 40x22 or 41x41	233, 362

C Cable ladders

15C12-...-A/ 16C12-...-A	cover for bend, without locking device	70, 80
15C12-...-AR/ 16C12-...-AR	cover for bend, with locking device	70, 80
15C12-...-T/ 16C12-...-T	cover for extension tee, without locking device	70, 80
15C12-...-TR/ 16C12-...-TR	cover for extension tee, with locking device	70, 80
150C13-A/ 160C13-A	divider strip for cable ladder, side height 60 mm	68
151C1-...-L63/ 161C1-...-L63	cable ladder, side height 60 mm, standard support width 1.5 m, mat-thickness 1.5 mm	64
151C1-...-S63/ 161C1-...-S63	cable ladder, side height 60 mm, standard support width 1.5 m, mat-thickness 2.0 mm	64
151C15-.../ 161C15-.....	extension tee for cable ladder, side height 60 mm.	65
151C2-...-A/ 161C2-...-A	bend for cable ladder, side height 60 mm	65
151C20-.../ 161C20-.....	crossing for cable ladder, side height 60 mm	66
152C13-A/ 162C13-A	divider strip for cable ladder, side height 100 mm.	78
152C13-SA/ 162C13-SA/ 142C13-SA	divider strip for wide span ladder, side height 105 mm	110
153C1-...-L63/ 163C1-...-L63	cable ladder, side height 100 mm, standard support width 3.0 m.	74
153C1-...-S/ 163C1-...-S	wide span ladder, side height 105 mm, support width max. 7,0 m	106
153C13-B/ 163C13-B	divider strip for wide span ladder, side height 150 mm	119
153C15-...-L/ 163C15-...-L	extension tee for cable ladder, side height 100 mm	75
153C15-...-S/ 163C15-...-S	extension tee for wide span ladder, side height 105 mm	108
153C2-...-LA/ 163C2-...-LA	bend for cable ladder, side height 100 mm	75

C Cable ladders (continuation)

153C2-...-S / 163C2-...-S	bend for wide span ladder, side height 105 mm	108
153C20-... / 163C20-...	crossing for cable ladder, side height 100 mm	76
153C20-...-S / 163C20-...-S	crossing for wide span ladder, side height 105 mm	109
153C4-...-S / 163C4-...-S	tee for wide span ladder, side height 105 mm	109
153C9-A / 163C9-A	straight joint for wide span trays or ladders, side height 105 mm	87, 107
153C9-B / 163C9-B	bendable joint for wide span trays or ladders, side height 105 mm	87, 107
153C9-C / 163C9-C	hinge piece for wide span trays or ladders, side height 105 mm	87, 107
154C1-...-N / 164C1-...-N	wide span ladder, side height 150 mm, support width max. 8.0 m, material thickness 1.5 mm	114
154C1-...-S / 164C1-...-S	wide span ladder, side height 150 mm, support width max. 8.0 m, material thickness 2.0 mm	115
154C15-...-S / 164C15-...-S	extension tee for wide span ladder, side height 150 mm	117
154C2-...-S / 164C2-...-S	bend for wide span ladder, side height 150 mm	117
154C20-...-S / 164C20-...-S	crossing for wide span ladder, side height 150 mm	118
154C4-...-S / 164C4-...-S	tee for wide span ladder, side height 150 mm	118
154C9-A / 164C9-A	straight joint for wide span trays or ladders, side height 150 mm	98, 116
154C9-B / 164C9-B	bendable joint for wide span trays or ladders, side height 150 mm	98, 116
154C9-C / 164C9-C	hinge piece for wide span trays or ladders, side height 150 mm	98, 116
16C7-400-A	flat corner for cable ladder	68, 78
16C8-...-B	exit plate for cable ladder	66, 76
16C8-Z	fixing screw M6x20	68, 78
163C13-A	divider strip for wide span ladder, side height 200 mm	128
163C8-...-B	exit plate for wide span ladder	107, 116
165C1-...	wide span ladder, side height 200 mm, support width max. 10.0 m	124
165C1-Z	accessory screw	128
165C12-...	cover for wide span ladder, side height 200 mm	129
165C12-...-A	cover for horizontal bend (only for side height 200 mm)	129
165C12-...-T	cover for T-downward (only for side height 200 mm)	129
165C14	jointing piece for wide span ladder, side height 200 mm	127
165C2-...	bend for wide span ladder, side height 200 mm	125
165C3-...	T-downward for wide span ladder, side height 200 mm	126
165C5-...	crossing for wide span ladder, side height 200 mm	126
165C8-...-A	vertical bend for wide span ladder, side height 200 mm, downward	125
165C8-...-B	vertical bend for wide span ladder, side height 200 mm, upward	125
165C9-A	bendable joint, outside for wide span ladder, side height 200 mm	127
165C9-B	bendable joint, inside for wide span ladder, side height 200 mm	127
165C9-C	hinge piece for wide span ladder, side height 200 mm	127
17C12-...-A	cover for bend for cable ladder, side height 60 mm	284
17C12-...-AR	cover for bend for cable ladder, side height 60 mm	284
17C12-...-T	cover for extension tee for cable ladder, side height 60 mm	284
17C12-...-TR	cover for extension tee for cable ladder, side height 60 mm	284
17C13-A	divider strip for cable ladder, stainless steel	217
17C13-K	divider strip fixing clamp, stainless steel	298, 303, 312, 317
17C13-M	divider strip fixing clamp, stainless steel	279
17C7-400-A	flat corner	279
17C8-...-B	exit plate	281
17C8-Z	fixing screw M6x20	279
170C13-A	divider strip for cable ladder side height 60mm, stainless steel	279
171C1-...-L63 / 181C1-...-L63	cable ladder, side height 60mm, support width max. 1.5 m	278
171C15-...	extension tee for cable ladder, side height 60 mm	280
171C2-...-A	bend for cable ladder, side height 60 mm	280
171C20-...	crossing for cable ladder, side height 60 mm	281
172C13-A	divider strip for wide span ladder	312
173C1-...-S	wide span ladder, side height 105 mm, support width max. 7.0 m	3 10
173C13-A	divider strip for wide span ladder Height 98 mm, stainless steel	317
173C15-...-S	extension tee for wide span ladder, side height 105 mm, stainless steel	313
173C2-...-S	bend for wide span ladder, side height 105 mm	313
173C20-...-S	crossing for wide span ladder, side height 105 mm	314
173C4-...-S	tee for wide span ladder, side height 105 mm	314
173C8-...-B	exit plate	321
173C9-...	jointing piece for wide span systems side height 105mm	297, 311
174C1-...-N	wide span ladder, side height 150mm	315
174C15-...-S	extension tee for wide span ladder, side height 150mm	3 18
174C2-...-S	bend for wide span ladder, side height 150mm	318
174C20-...-S	crossing for wide span ladder, side height 150mm	319
174C4-...-S	tee for wide span ladder, side height 150mm	319
174C9-...	jointing piece for wide span systems side height 150mm	302, 316
181C20-...-A	corner for cable ladder side height 60mm, stainless steel	281

Index

Index of order numbers

D Double trough

20DW-.....	double trough for all clips for 2 or 3 Kabel	366
------------	--	-----

E Jointing piece

15E11-A/ 16E11-A	Universal joint for luminaire support tray, side height 50 mm	41
151E11-A/ 161E11-A	straight joint for cable ladder and for vertical cable ladder, side height 60 mm	67, 204
151E11-B/ 161E11-B	bendable joint for cable ladder, side height 60 mm	67
151E11-C/ 161E11-C	hinge piece for cable ladder, side height 60 mm	67
151E12-A/ 161E12-A	straight joint for cable tray, side height 60 mm	11
151E12-B/ 161E12-B	bendable joint for cable tray, side height 60 mm	11
151E12-C/ 161E12-C	hinge piece for cable tray, side height 60 mm	11
151E14-A/ 161E14-AF	straight joint screwless, side height 110 mm	7
153E11-A/ 163E11-A	straight joint for cable ladder, side height 100 mm	77
153E11-B/ 163E11-B	bendable joint for cable ladder, side height 100 mm	77
153E11-C/ 163E11-C	hinge piece for cable ladder, side height 100 mm	77
153E12-A/ 163E12-A	straight joint for cable tray, side height 105 mm	22
153E12-B/ 163E12-B	bendable joint for cable tray, side height 105 mm	22
153E12-C/ 163E12-C	hinge piece for cable tray, side height 105 mm	22
17E11-A/ 18E11-A	Universal joint, stainless steel	255, 260
171E11-A/ 181E11-A	straight joint for cable ladder and for vertical cable ladder, side height 60 mm, stainless steel	282, 290
171E11-B/ 181E11-B	bendable joint for cable ladder, side height 60 mm, stainless steel	285
171E11-C/ 181E11-C	hinge piece for cable ladder, side height 60 mm, stainless steel	282
171E12-A	straight joint for cable tray, side height 60 mm, stainless steel	261
171E12-B	bendable joint for cable tray, side height 60 mm, stainless steel	261
171E12-C	hinge piece for cable tray, side height 60 mm, stainless steel	261
173E12-A	straight joint for cable tray side height 110mm, stainless steel	269
173E13-A-...	U-form straight joint, Height 99mm stainless steel	269
173E13-C	hinge piece for cable tray side height 110mm, stainless steel	271

F Profile rail

15F2-...-B/ 16F2-...-B	C-profile rail 23x11, unperforated	211
15F2-...-C/ 16F2-...-C	C-profile rail 30x15, perforated	165, 211, 328
15F2-...-E/ 16F2-...-E	C-profile rail 40x22, unperforated	211, 328
15F2-...-L/ 16F2-...-L	C-profile rail 40x22, perforated	212, 328
15F22-...-E/ 16F22-...-E	Double C-rail 40x44, unperforated	212, 328
16F4-...-A	mounting angle L40x50, perforated	213
16F5-...-A	C-profile rail 41x41x2,5, perforated	212, 329
16F55-...-A	Double C-rail 41x82x2,5, perforated	164, 213, 329
16F6-...-A	mounting angle U70x50, perforated	213
17F2-...-C	C-profile rail 30x15, perforated, stainless steel	231, 234, 328
17F2-...-E	C-profile rail 40x22, unperforated, stainless steel	328
17F2-...-L/ 18F2-...-L	C-profile rail 40x22, perforated, stainless steel	231, 328
17F22-...-E	Double C-rail 40x44, unperforated, stainless steel	328
17F5-...-A	C-profile rail 41x41x2,5, perforated, stainless steel	233, 329

G Counter troughs

15GW-.....	counter troughs made of steel	367
20GW23-.....	counter troughs for yoke clips for C-profile 23x11	364
20GW30-.....	counter troughs for yoke clips for C-profile 30x15	363
20GWU-.....	Universal counter trough for all clips	365

J Fixing technics

171S1-...	trellis tray, heavy design, side height 60 mm, stainless steel	245
171S1-...-L	trellis tray, side height 60 mm, stainless steel	245

U Fixing for trellis trays

16U1-3000	horizontal support bar for trellis tray	45
16U12-...	hanging support for trellis tray	45
16U2-200	standard hanger rod for trellis tray	45
16U6-A	support corner	13, 24, 46, 68, 78, 91, 110, 210
17U6-A	support corner	275, 279, 321

V Cable protection

15V13-A / 18V13-A	edge protection for cable trays, wide span systems, protection tube	13, 24, 90, 101, 193, 384
15V9-A	protective ring of flexible plastic, 30 mm diameter	376
15V9-B	protective end cap of flexible plastic, 30 mm diameter	376
151V9-A	protective ring of flexible plastic, 60 mm diameter	383
151V9-B	protective end cap of flexible plastic, 60 mm diameter	383
16ASS-60	heavy screw distance clamp, 60 mm diameter	383
16V10-A	protection tube tee, 30 mm diameter	372
16V11-A	protection tube mounting plate, incl. 1 endless screw clamp, 30 mm diameter	373
16V11-B	protection tube mounting plate, incl. 2 endless screw clamp, 30 mm diameter	373
16V2-3015-M	protection tube support with sleeve, for fixing to cable tray or ladder, 30 mm diameter	374
16V2-3030-M	protection tube support with sleeve, for fixing to wide span tray or ladder, 30 mm diameter	374
16V2-6015-B	protection tube support with bracket, for fixing to cable tray or ladder, 30 mm diameter	374
16V2-6030-B	protection tube support with bracket, for fixing to wide span tray or ladder, 30 mm diameter	374
16V2-B	protection tube support with bracket, for fixing to cable ladder, 30 mm diameter	374
16V2-M	protection tube support with sleeve, for fixing to cable ladder, 30 mm diameter	375
16V3-6000	protection tube 30 mm diameter	372
16V4-A	protection tube bend 90°, 30 mm diameter	372
16V5-A	protection tube bend 45°, 30 mm diameter	372
16V6-A	protection tube sleeve, 30 mm diameter	372
16V6-B	protection tube oblong hole sleeve, 30 mm diameter	373
16V6-C	protection tube clip, 30 mm diameter	375
16V6-D	tube clamp, 30 mm diameter	375
16V6-E	protection tube anchor clip, 30 mm diameter	375
16V8-A	protection tube floor support, 30 mm diameter	373
16V8-B	protection tube floor corner, 30 mm diameter	373
161V10-A	protection tube tee, 60 mm diameter	378
161V11-A	protection tube mounting plate, incl. 1 endless screw clamp, 60 mm diameter	379
161V11-B	protection tube mounting plate, incl. 2 endless screw clamp, 60 mm diameter	380
161V11-C	protection tube mounting plate, incl. 2 endless screw clamp, 60 mm diameter	380
161V12-...	protection tube downward, 60 mm diameter	381
161V2-6015-B	protection tube support with bracket, for fixing to cable tray or ladder, 60 mm diameter	381
161V2-6015-M	protection tube support with sleeve, for fixing to cable tray or ladder, 60 mm diameter	381
161V2-6030-B	protection tube support with bracket, for fixing to wide span tray or ladder, 60 mm diameter	381
161V2-6030-M	protection tube support with sleeve, for fixing to wide span tray or ladder, 60 mm diameter	382
161V2-B	protection tube support with bracket, for fixing to cable ladder, 60 mm diameter	382
161V2-M	protection tube support with sleeve, for fixing to cable ladder, 60 mm diameter	382
161V3-6000	protection tube 60 mm diameter	377
161V3-6000-L	protection tube slotted, 60 mm diameter	377
161V4-A	protection tube bend 90°, 60 mm diameter	377
161V4-B	protection tube bend 90° open, small, 60 mm diameter	378
161V4-C	protection tube bend 90° open, big, 60 mm diameter	378
161V5-A	protection tube bend 45°, 60 mm diameter	377
161V6-A	protection tube sleeve, 60 mm diameter	378
161V6-B	protection tube oblong hole sleeve, 60 mm diameter	379
161V6-C	protection tube clip, 60 mm diameter	382
161V6-D	tube clamp, 60 mm diameter	383
161V6-E	protection tube anchor clip, 60 mm diameter	383
161V7-...	mounting support, closed, 60 mm diameter	380
161V7-300-A	mounting support, open, 60 mm diameter	380
161V8-A	protection tube floor fixing, 60 mm diameter	379
161V8-B	protection tube floor corner, 60 mm diameter	379

V Cable protection (continuation)

161V8-C	protection tube floor support, 60mm diameter	382
17V10-A	protection tube tee, 30 mm diameter, stainless steel	372
17V11-A	protection tube mounting plate, incl. 1 endless screw clamp, 30 mm diameter, stainless steel	373
17V11-B	protection tube mounting plate, incl. 2 endless screw clamps, 30 mm diameter, stainless steel	373
17V11-WZ105	warning symbol, adhesive label DIN 4844 yellow/red	384
17V2-3015-M	protection tube support with sleeve, for fixing to cable tray or ladder, 30 mm diameter, stainless steel	374
17V2-3030-M	protection tube support with sleeve, for fixing to wide span trays or ladders, 30 mm diameter, stainless steel	374
17V2-6015-B	protection tube support with bracket, for fixing to cable tray or ladder, 30 mm diameter, stainless steel	374
17V2-6030-B	protection tube support with bracket, for fixing to wide span trays or ladders, 30 mm diameter, stainless steel	374
17V2-B	protection tube support with bracket, for fixing to cable ladder, 30 mm diameter, stainless steel	374
17V2-M	protection tube support with sleeve, for fixing to cable ladder, 30 mm diameter, stainless steel	375
17V3-6000	protection tube 30 mm diameter, stainless steel	372
17V4-A	protection tube bend 90°, 30 mm diameter, stainless steel	372
17V5-A	protection tube bend 45°, 30 mm diameter, stainless steel	372
17V6-A	protection tube sleeve, 30 mm diameter, stainless steel	372
17V6-B	protection tube oblong hole sleeve, 30 mm diameter, stainless steel	373
17V6-C	protection tube clip, 30 mm diameter, stainless steel	375
17V6-D	tube clamp, 30 mm diameter, stainless steel	375
17V6-E	protection tube anchor clip, 30 mm diameter, stainless steel	375
17V6-F	endless screwed clamp, 30 mm diameter, stainless steel	375
17V8-A	protection tube floor fixing, 30 mm diameter, stainless steel	373
17V8-B	protection tube floor corner, 30 mm diameter, stainless steel	373
171V10-A	protection tube tee, 60 mm diameter, stainless steel	378
171V11-A	protection tube mounting plate, incl. 1 endless screw clamp, 60 mm diameter, stainless steel	379
171V11-B	protection tube mounting plate, incl. 2 endless screw clamps, 60 mm diameter, stainless steel	380
171V11-C	protection tube mounting plate, incl. 2 endless screw clamps, 60 mm diameter, stainless steel	380
171V12-200	protection tube downward, 60 mm diameter, stainless steel	381
171V2-6015-B	protection tube support with bracket, for fixing to cable tray or ladder, 60 mm diameter, stainless steel	381
171V2-6015-M	protection tube support with sleeve, for fixing to cable tray or ladder, 60 mm diameter, stainless steel	381
171V2-6030-B	protection tube support with bracket, for fixing to wide span trays or ladders, 60 mm diameter, stainless steel	381
171V2-6030-M	protection tube support with sleeve, for fixing to wide span trays or ladders, 60 mm diameter, stainless steel	382
171V2-B	protection tube support with bracket, for fixing to cable ladder, 60 mm diameter, stainless steel	382
171V2-M	protection tube support with sleeve, for fixing to cable ladder, 60 mm diameter, stainless steel	382
171V3-6000	protection tube 60 mm diameter, stainless steel	377
171V4-A	protection tube bend 90°, 60 mm diameter, stainless steel	377
171V4-B	protection tube bend 90° open, small, 60 mm diameter, stainless steel	378
171V5-A	protection tube bend 45°, 60 mm diameter, stainless steel	377
171V6-A	protection tube sleeve, 60 mm diameter	378
171V6-B	protection tube oblong sleeve, 60 mm diameter, stainless steel	379
171V6-C	protection tube clip, 60 mm diameter, stainless steel	382
171V6-D	tube clamp, 60 mm diameter, stainless steel	383
171V6-E	protection tube anchor clip, 60 mm diameter, stainless steel	383
171V6-F	endless screw clamp, 60 mm diameter, stainless steel	383
171V7-300	mounting support closed, 60 mm diameter, stainless steel	380
171V7-300-A	mounting support, open, 60 mm diameter, stainless steel	380
171V8-A	protection tube floor fixing, 60 mm diameter, stainless steel	379
171V8-B	protection tube floor corner, 60 mm diameter, stainless steel	379
171V8-C	protection tube floor standing, 60 mm diameter, stainless steel	382

W Cable trays

15W11-.../16W11-...	cable protection plate for cable trays	13, 22, 90, 101
15W12-.../16W12-...	cover for cable trays or ladders, ohne Verriegelung	14, 25, 69, 79, 92, 102, 111, 120
15W12-...-B/16W12-...-B	cover for bend, ohne Verriegelung	15, 26
15W12-...-BR/16W12-...-BR	cover for bend, mit Verriegelung	15, 26
15W12-...-R/16W12-...-R	cover for cable trays or ladders, mit Verriegelung	14, 25, 69, 79, 92, 102, 111, 120
15W12-...-T/16W12-...-T	cover for extension tee, without locking device	15, 26
15W12-...-TR/16W12-...-TR	cover for extension tee, with locking device	15, 26
15W7-.../16W7-...	joint cover plate for cable trays	13, 22
15W8-.../16W8-...	joint cover plate for wide span trays	87, 98
15W9-.../16W9-...	joint cover plate for cable trays	7
151W01-...-L/161W01-...-L	cable tray, unperforated, side height 60 mm, standard support spacing 1.5 m	6
151W02-...-L/161W02-...-L	cable tray, perforated, side height 60 mm, standard support spacing 1.5 m	6
151W1-...	cable tray, unperforated, side height 60 mm, standard support spacing 1.5 m	4
151W13-A/161W13-A/141W13-A	divider strip for cable trays, side height 60mm	11, 33

W Cable trays (continuation)

151W15-...-B / 161W15-...-B	extension tee for cable tray, side height 60 mm	10
151W17-...-B / 161W17-...-B	corner for cable tray, side height 60 mm	10
151W2-... / 161W2-...	cable tray, perforated, side height 60 mm, standard support spacing 1.5 m	5
151W22-...	cable tray, perforated, side height 60 mm, standard support spacing 1.5 m	5
151W3-...-B / 161W3-...-B	bend for cable tray, side height 60 mm	10
152W13-A / 162W13-A / 142W13-A	divider strip for wide span tray, side height 105 mm	90
153W13-A / 163W13-A / 143W13-A	divider strip for cable tray, side height 110 mm and wide span tray, side height 150 mm	24, 101
153W15-...-B / 163W15-...-B	extension tee for cable tray, side height 110 mm	21
153W17-B / 163W17-B	corner for cable tray, side height 110 mm	21
153W17-BW / 163W17-BW	corner for wide span trays and ladders, side height 105 mm	89, 109
153W2-... / 163W2-...	cable tray, perforated, side height 110 mm, support width max. 2.5 m	18
153W3-...-B / 163W3-...-B	bend for cable tray, side height 110 mm	20
154W17-BW / 164W17-BW	corner for wide span trays or ladders, side height 150 mm	100, 118
161W18-...	reducing joint for cable tray, side height 60 mm	12
163W18-...	reducing joint for cable tray, side height 110 mm	23
17W11-...	cable protection plate for cable tray, stainless steel	264, 272, 298, 306
17W12-...	cover for cable ladders, without locking device, stainless steel	273, 283
17W12-...-B	cover for bend, without locking device, stainless steel	274
17W12-...-BR	cover for bend, with locking device, stainless steel	274
17W12-...-R / 18W12-...-R	cover for cable tray, with locking device, stainless steel	273, 283
17W12-...-RW	cover for wide span trays and ladders, stainless steel	320
17W12-...-T	cover for extension tee, without locking device, stainless steel	274
17W12-...-TR	cover for extension tee, with locking device, stainless steel	274
17W12-K	fixing spring for cover cable tray	14, 25, 273
17W13-A	divider strip for cable tray, height 47mm, stainless steel	260
17W13-V	joint for divider strip for divider strip 47 mm height, stainless steel	248, 260
17W7-...	joint cover plate for cable tray, stainless steel	261
17W8-...	joint cover plate for wide span trays, stainless steel	297, 306
171W1-...	cable tray, stainless steel, unperforated, side height 60 mm	259
171W12-K	fixing clip for cover, side height 60 mm	14, 59, 69, 273, 283
171W13-A / 181W13-A	divider strip for cable tray, side height 60 mm, stainless steel	260
171W15-...-B	extension tee for cable tray, stainless steel, side height 60 mm	262
171W17-B / 181W17-B	corner for cable tray, stainless steel, side height 60 mm	262
171W18-...	reducing joint for cable tray, side height 60 mm	263
171W2-...	cable tray, stainless steel, perforated, side height 60 mm	258
171W23-... / 181W23-...	cable tray, stainless steel, perforated, side height 60 mm	258
171W3-...-B	bend for cable tray, stainless steel, side height 60 mm	262
172W13-A	divider strip for cable tray, stainless steel, height 80mm	298
172W13-V	joint for divider strip for divider strip height 80mm, stainless steel	298, 312
173W1-...	cable tray side height 110mm, unperforated, stainless steel	268
173W12-K	fixing clip for cover for cable ladder, side height 100mm	79
173W12-K110	fixing clip for cover for cable tray, side height 110 mm	25, 212, 273
173W12-KW	fixing clip for cover for wide span trays	92, 111, 320
173W13-A	divider strip for cable tray side height 110 mm, stainless steel	269, 303
173W13-V	joint for divider strip for divider strip 98 mm height, stainless steel	269, 303, 317
173W15-...-B	extension tee for cable tray side height 110mm, stainless steel	270
173W17-B	corner for cable tray side height 110mm, stainless steel	270
173W17-BW	corner for cable tray/ladders, side height 105 mm	300, 314
173W18-...	reducing joint for cable tray side height 110mm, stainless steel	271
173W2-...	cable tray side height 110mm, perforated, stainless steel	268
174W17-BW	corner for wide span trays/ladders side height 150 mm	305, 319

Y Wide span cable trays

15Y34-MP1 / 16Y34-MP1	mounting plate	12, 23
153Y15-... / 163Y15-...	extension tee for wide span tray, side height 105mm	88
153Y2-... / 163Y2-...	wide span tray, perforated, side height 105 mm, support width max. 7.0 m	86
153Y20-... / 163Y20-...	crossing for wide span tray, side height 105 mm	89
153Y3-... / 163Y3-...	bend for wide span tray, side height 105 mm	88
153Y4-... / 163Y4-...	tee for wide span tray, side height 105 mm	89
154Y15-... / 164Y15-...	extension tee for wide span tray, side height 150 mm	99
154Y2-...-N / 164Y2-...-N	wide span tray, side height 150 mm, sheet thickness 1.5 mm, support width max. 8.0 m	96
154Y2-...-S / 164Y2-...-S	wide span tray, side height 150 mm, sheet thickness 2.0 mm, support width max. 8.0 m	97
154Y20-... / 164Y20-...	crossing for wide span tray, side height 150 mm	100
154Y3-... / 164Y3-...	bend for wide span tray, side height 150 mm	99

Y Wide span cable trays (continuation)

Bracket

bracket for hanging support l80, length 250mm to 1000mm.....	16B8-...-W.....	158
bracket for hanging support , length 100mm to 400mm.....	15B5-.....	136
bracket for hanging support , length 100mm to 400mm.....	15B6-.....	137
bracket for hanging support , length 100mm to 600mm.....	16B7-.....	138
bracket for H-support , length 100mm to 600mm	16B1-.....	157
bracket for wall mounting, length 100mm to 400mm.....	15A20-... / 16A20-.....	169
bracket for support and wall mounting, length 100mm to 300mm.....	06B2-.....	147
bracket for support and wall mounting, stainless steel, length 100mm to 300mm.....	07B2-.....	218
bracket for support and wall mounting, stainless steel, length 100mm to 300mm.....	17B3-.....	219
bracket for support and wall mounting, stainless steel, length 100mm to 1000mm.....	17B2-.....	220
bracket for support and wall mounting, stainless steel, length 100mm to 600mm.....	18B2-.....	220
bracket for support and wall mounting, stainless steel, length 200mm to 1000mm.....	17B9-...-W.....	221
bracket for support mounting, stainless steel, length 100mm to 400mm	17B6-.....	223
bracket for support mounting, stainless steel, length 100mm to 400mm	18B7-.....	225
bracket for support mounting, stainless steel, length 100mm to 600mm	17B7-.....	225
bracket for support and wall mounting, length 100mm to 600mm.....	15B3-... / 16B3-.....	148, 172
bracket for support and wall mounting, length 100mm to 700mm.....	16B2-.....	149, 173
bracket for support mounting, length 100mm to 400mm.....	18B6-.....	223
bracket V4A stainless steel, support and wall mounting, length 100mm to 400mm.....	18B3-.....	219
bracket adjustable for slopes, wall mounting, length 350mm to 700mm.....	16B13-.....	171
bracket, wall mounting, length 250mm to 1000mm, especially for wide span systems....	16B9-...-W.....	174
wall brackets, length 200mm to 1000 mm	16B22-.....	175

Butt strap

butt strap.....	16J49 / 17J49	332
-----------------	---------------------	-----

C-trellis tray

C-trellis tray, heavy design, stainless steel	17S1-...-CD	247
C-trellis tray, side height 68 mm	16S1-...-C.....	50

C-profile rail + C-rungs

C-profile rail 23x11, unperforated	15F2-...-B / 16F2-...-B.....	211
C-profile rail 30x15, perforated	15F2-...-C / 16F2-...-C.....	165, 211, 328
C-profile rail 30x15, perforated, stainless steel	17F2-...-C.....	231, 234, 328
C-profile rail 40x22, perforated	15F2-...-L / 16F2-...-L	212, 328
C-profile rail 40x22, perforated, stainless steel	17F2-...-L / 18F2-...-L	212, 328
C-profile rail 40x22, unperforated	15F2-...-E / 16F2-...-E	212, 328
C-profile rail 40x22, unperforated, stainless steel.....	17F2-...-E	328
C-profile rail 41x41, perforated, stainless steel	17A4-...-K.....	232
C-profile rail 41x41, perforated	16A4-...-K.....	163
C-profile rail 41x41x2,5, perforated.....	16F5-...-A.....	212, 329
C-profile rail 41x41x2,5, perforated, stainless steel.....	17F5-...-A.....	233, 329
C-rungs 30x15 for vertical cable ladders.....	05L12-... / 06L12-...	204
C-rungs 40x22 for vertical cable ladders like 16L3-...-C	15L12-...-C / 15L12-...-C.....	205
C-rungs 40x22 for vertical cable ladders like 16L3-...-C	16L12-...-C.....	207
C-rungs 40x22 for vertical cable ladders like 16L3-...-C	16L13-...-C.....	209
C-rungs 40x22 for vertical cable ladders like 171L33-...-C	17L12-...-C.....	292

Cable ladder

cable ladder, side height 100mm, standard support width 3.0 m	153C1-...-L63 / 163C1-...-L63.....	74
cable ladder, side height 60mm, standard support width 1.5 m, side thickness 1.5mm... ..	151C1-...-L63 / 161C1-...-L63.....	64
cable ladder, side height 60mm, standard support width 1.5 m, side thickness 2.0mm... ..	151C1-...-S63 / 161C1-...-S63	64
cable ladder, side height 60mm, standard support width 1.5 m	171C1-...-L63 / 181C1-...-L63.....	278

Cable protection

cable protection for luminaire support tray and INSTA tray	15N20-20	32, 41, 255
cable protection for luminaire support tray and INSTA tray	15N20-30	32, 41, 255
cable protection plate for cable tray	15W11-... / 16W11-...	13, 22, 90, 101
cable protection plate for cable tray, stainless steel	17W11-...	264, 272, 298, 306

Cable protection tube accessory

tube clamp, 30 mm diameter	16V6-D	375
tube clamp, 30 mm diameter, stainless steel	17V6-D	375
tube clamp, 60 mm diameter	161V6-D	383
tube clamp, 60 mm diameter, stainless steel	171V6-D	383
mounting support, 60mm diameter, closed	161V7-...	380
mounting support, 60mm diameter, closed, stainless steel	171V7-300	380
mounting support, 60mm diameter, open	161V7-300-A	380
mounting support, 60mm diameter, open, stainless steel	171V7-300-A	380
endless screw clamp, 30 mm diameter, stainless steel	17V6-F	375
endless screw clamp, 60 mm diameter, stainless steel	171V6-F	383
protective end cap of flexible plastic, 30 mm diameter	15V9-B	376
protective end cap of flexible plastic, 60 mm diameter	151V9-B	383
protection tube downward, 60 mm diameter	161V12-...	381
protection tube downward, 60 mm diameter, stainless steel	171V12-200	381
protection tube anchor clip, 30 mm diameter	16V6-E	375
protection tube anchor clip, 30 mm diameter, stainless steel	17V6-E	375
protection tube anchor clip, 60 mm diameter	161V6-E	383
protection tube anchor clip, 60 mm diameter, stainless steel	171V6-E	383
protection tube floor fixing, 30 mm diameter	16V8-A	373
protection tube floor fixing, 30 mm diameter, stainless steel	17V8-A	373
protection tube floor fixing, 60 mm diameter	161V8-A	379
protection tube floor fixing, 60 mm diameter, stainless steel	171V8-A	379
protection tube floor support, 60 mm diameter	161V8-C	382
protection tube floor support, 60 mm diameter, stainless steel	171V8-C	382
protection tube floor corner, 30 mm diameter	16V8-B	373
protection tube floor corner, 30 mm diameter, stainless steel	17V8-B	373
protection tube floor corner, 60 mm diameter	161V8-B	379
protection tube floor corner, 60 mm diameter, stainless steel	171V8-B	379
protection tube oblong hole sleeve, 30 mm diameter	16V6-B	373
protection tube oblong hole sleeve, 30 mm diameter, stainless steel	17V6-B	373
protection tube oblong hole sleeve, 60 mm diameter	161V6-B	379
protection tube oblong hole sleeve, 60 mm diameter, stainless steel	171V6-B	379
protection tube mounting plate incl. 1 endless screw clamp, 30 mm diameter	16V11-A	373
protection tube mounting plate incl. 1 endless screw clamp, 30 mm d., stainl. steel	17V11-A	373
protection tube mounting plate incl. 1 endless screw clamp, 30 mm diameter	161V11-A	379
protection tube mounting plate incl. 1 endless screw clamp, 30 mm d., stainless steel	171V11-A	379
protection tube mounting plate incl. 2 endless screw clamps, 30 mm diameter	16V11-B	373
protection tube mounting plate incl. 2 endless screw clamps, 30 mm d., stainless steel	17V11-B	373
protection tube mounting plate incl. 2 endless screw clamps, 60 mm diameter	161V11-B	380
protection tube mounting plate incl. 2 endless screw clamps, 60 mm diameter	161V11-C	380
protection tube mounting plate incl. 2 endless screw clamps, 60 mm d., stainless steel	171V11-B	380
protection tube mounting plate incl. 2 endless screw clamps, 60 mm d., stainless steel	171V11-C	380
protection tube tee, 30 mm diameter	16V10-A	372
protection tube tee, 30 mm diameter, stainless steel	17V10-A	372
protection tube tee, 60 mm diameter	161V10-A	378
protection tube tee, 60 mm diameter, stainless steel	171V10-A	378
protection tube bend 45°, 30 mm diameter	16V5-A	372
protection tube bend 45°, 30 mm diameter, stainless steel	17V5-A	372
protection tube bend 45°, 60 mm diameter	161V5-A	377
protection tube bend 45°, 60 mm diameter, stainless steel	171V5-A	377
protection tube bend 90°, 60 mm diameter, open, big	161V4-C	378
protection tube bend 90°, 60 mm diameter, open, small	161V4-B	378
protection tube bend 90°, 60 mm diameter, stainless steel, open, small	171V4-B	378
protection tube bend 90°, 30 mm diameter	16V4-A	378
protection tube bend 90°, 30 mm diameter, stainless steel	17V4-A	372
protection tube bend 90°, 60 mm diameter	161V4-A	377
protection tube bend 90°, 60 mm diameter, stainless steel	171V4-A	377
protection tube support with bracket, 30 mm diameter, for cable ladder	16V2-B	374
protection tube support with bracket, 30 mm diameter, stainless steel, for cable ladder	17V2-B	374

Cable protection tube accessory (continuation)

protection tube support with bracket, 60 mm diameter, for cable ladder	161V2-B	382
protection tube support with bracket, 60 mm diameter, stainless steel, for cable ladder ..	171V2-B	382
protection tube support with bracket, 30 mm diameter, for tray or ladder	16V2-6015-B	374
protection tube support with bracket, 30 mm diameter, stainless steel, for tray or ladder ..	17V2-6015-B	374
protection tube support with bracket, 60 mm diameter, for tray or ladder	161V2-6015-B	381
protection tube support with bracket, 60 mm diameter, stainless steel, for tray or ladder ..	171V2-6015-B	381
protection tube support with bracket, 30 mm diameter, for wide span system	16V2-6030-B	374
protection tube support with bracket, 30 mm diameter, stainless steel, for wide span	17V2-6030-B	374
protection tube support with bracket, 60 mm diameter, for wide span system	161V2-6030-B	381
protection tube support with bracket, 60 mm diameter, stainless steel, for wide span	171V2-6030-B	381
protection tube support with sleeve, 30 mm diameter, for cable ladder	16V2-M	375
protection tube support with sleeve, 30 mm diameter, stainless steel, for cable ladder	17V2-M	375
protection tube support with sleeve, 60 mm diameter, for cable ladder	161V2-M	382
protection tube support with sleeve, 60 mm diameter, stainless steel, for cable ladder	171V2-M	382
protection tube support with sleeve, 30 mm diameter, for tray or ladder	16V2-3015-M	374
protection tube support with sleeve, 30 mm diameter, stainless steel, for tray or ladder ..	17V2-3015-M	374
protection tube support with sleeve, 60 mm diameter, for tray or ladder	161V2-6015-M	381
protection tube support with sleeve, 60 mm diameter, stainless steel, for tray or ladder ..	171V2-6015-M	381
protection tube support with sleeve, 30 mm diameter, for wide span systems	16V2-3030-M	374
protection tube support with sleeve, 30 mm diameter, stainless steel, for wide span	17V2-3030-M	374
protection tube support with sleeve, 60 mm diameter, for wide span systems	161V2-6030-M	382
protection tube support with sleeve, 60 mm diameter, stainless steel, for wide span	171V2-6030-M	382
protection tube sleeve, 30 mm diameter	16V6-A	372
protection tube sleeve, 30 mm diameter, stainless steel	17V6-A	372
protection tube sleeve, 60 mm diameter	161V6-A	378
protection tube sleeve, 60 mm diameter	171V6-A	378
protection tube clip, 30 mm diameter	16V6-C	375
protection tube clip, 30 mm diameter, stainless steel	17V6-C	375
protection tube clip, 60 mm diameter	161V6-C	382
protection tube clip, 60 mm diameter, stainless steel	171V6-C	382
heavy screw distance clamp, 60 mm diameter	16ASS-60	383

Cable protection tubes

cable protection tube 30 mm diameter	16V3-6000	372
cable protection tube 30 mm diameter, stainless steel	17V3-6000	372
cable protection tube 60 mm diameter	161V3-6000	377
cable protection tube 60 mm diameter, stainless steel	171V3-6000	377
cable protection tube 60 mm diameter, slotted	161V3-6000-L	377

Cable tray

cable tray, side height 110mm, perforated, stainless steel	173W2-... ..	268
cable tray, side height 110mm, unperforated, stainless steel	173W1-... ..	268
cable tray, stainless steel, perforated, side height 60 mm	171W2-... ..	258
cable tray, stainless steel, perforated, side height 60 mm	171W12-... / 181W12-... ..	258
cable tray, stainless steel, unperforated, side height 60 mm	171W1-... ..	259
cable tray, perforated, side height 110 mm, sheet thickness 1.5mm	153R02-...-N / 163R02-...-N	19
cable tray, perforated, side height 110 mm, standard support spacing 2.5m	153W2-... / 163W2-... ..	18
cable tray, perforated, side height 60 mm, sheet thickness 1.5mm	151R02-...-N / 161R02-...-N	8
cable tray, perforated, side height 60 mm, sheet thickness 1.5mm	151R02-...-S / 161R02-...-S	9
cable tray, perforated, side height 60 mm, standard support spacing 1.5m	151W2-... / 161W2-... ..	5
cable tray, perforated, side height 60 mm, standard support spacing 1.5m	151W22-... ..	5
cable tray, perforated, side height 60 mm, standard support spacing 1.5m	151W02-...-L / 161W02-...-L	6
cable tray, unperforated, side height 60 mm, standard support spacing 1.5m	151W01-...-L / 161W01-...-L	6
cable tray, unperforated, side height 60 mm, standard support spacing 1.5m	151W1-... ..	4

Central suspension

central suspension, width 100mm to 400mm	16B17-... ..	168

divider strip for cable tray, side height 60mm.....	151W13-A / 161W13-A / 141W13-A.....	11, 33
divider strip for plastic tray, side height 60mm.....	301M8-A.....	50
divider strip for wide span ladder.....	172C13-SA.....	312
divider strip for wide span ladder, height 98mm, stainless steel.....	173C13-A.....	317
divider strip for wide span ladder, side height 105mm.....	152C13-SA / 162C13-SA / 142C13-SA.....	110
divider strip for wide span ladder, side height 200mm.....	163C13-A.....	128
divider strip for wide span ladder, side height 150mm.....	153C13-B / 163C13-B.....	119
divider strip for wide span tray, side height 105mm.....	152W13-A / 162W13-A / 142W13-A.....	90

Divider strip accessory

divider strip fixing clamp for trellis tray, stainless steel.....	17S14-D.....	249
divider strip fixing clamp, stainless steel.....	17C13-K.....	298, 303, 312, 317
divider strip fixing clamp, stainless steel.....	17C13-M.....	279
divider strip fixing plate.....	15N13-........	33
joint for dividers strip 47mm height, stainless steel.....	17W13-V.....	248, 260
joint for dividers strip 98mm height, stainless steel.....	173W13-V.....	369, 303, 317
joint for dividers strip 80mm height, stainless steel.....	172W13-V.....	298, 312

Double C-rail

double bracket for double C-rail 16F55-...-A	16J48.....	331
double C-rail 40x44, unperforated.....	15F22-...-E / 16F22-...-E	212, 328
double C-rail 40x44, unperforated, stainless steel	17F22-...-E	328
double C-rail 41x82x2,5, perforated.....	16F55-...-A.....	164, 213, 329

Double trough

double troughs for all clips for 2 or 3 cables.....	20DW-.....	366
---	------------	-----

Drill bits

drill bit for internal-thread expansion bolt 15J1-FZEA-1240	15J1-FZUB-1240	181, 336
drill bit for internal-thread expansion bolt 15J1-FZEA-1440	15J1-FZUB-1440	181

Drive-in punch

drive-in punch for internal-thread exp. bolt 15J1-FZEA-1240	15J1-FZED-1240	181, 336
drive-in punch for internal-thread exp. bolt 15J1-FZEA-1440	15J1-FZED-1440	181

Edge protection

edge protection for cable trays, wide span systems, cable protection tubes	15V13-A / 18V13-A.....	13, 24, 90, 101, 193, 384
--	------------------------	---------------------------

End cover

end cover for INSTA-tray.....	15N...-ED-06	36
-------------------------------	--------------------	----

Exit plate

exit plate for cable ladder.....	16C8-...-B	66, 76
exit plate for wide span ladder.....	163C8-...-B	107, 116
exit plate.....	17C8-...-B	281
exit plate.....	173C8-...-B	321

Extension tee

extension tee for cable ladder, side height 100mm.....	153C15-...-L / 163C15-...-L.....	75
extension tee for cable ladder, side height 60 mm.....	151C15-... / 161C15-...	65
extension tee for cable ladder, side height 60 mm.....	171C15-...	280
extension tee for cable tray, side height 60mm, stainless steel.....	171W15-...-B.....	262
extension tee for cable tray, side height 110mm, stainless steel.....	173W15-...-B.....	270
extension tee for cable tray, side height 110 mm	153W15-...-B / 163W15-...-B	21
extension tee for cable tray, side height 60 mm	151W15-...-B / 161W15-...-B	10
extension tee for plastic tray, side height 60 mm.....	301M15-...	57
extension tee for marine cable ladder, side height 40 mm, width 100mm to 1000 mm	160P15-...	391
extension tee for wide span cable ladder, side height 150 mm, stainless steel.....	174C15-...-S.....	318
extension tee for wide span cable ladder, side height 105 mm.....	153C15-...-S / 163C15-...-S	108
extension tee for wide span cable ladder, side height 105 mm, stainless steel.....	173C15-...-S.....	313
extension tee for wide span cable ladder, side height 150 mm.....	154C15-...-S / 164C15-...-S	117
extension tee for wide span cable tray, side height 150 mm, stainless steel.....	174Y15-...-S.....	304
extension tee for wide span cable tray, side height 105 mm	153Y15-... / 163Y15-...	88
extension tee for wide span cable tray, side height 105 mm	173Y15-...	299
extension tee for wide span cable tray, side height 150 mm	154Y15-... / 164Y15-...	99

Eye bolt

eye bolt with nut M6x60	15N21-06.....	189
eye bolt slide with nut M6x60	15N21-...	190, 192

Fixing for ceilings

ceiling bracket, stainless steel.....	17J15-D	237
ceiling hook, M6x60	15N23	189, 192
ceiling hook, M6x60 for INSTA tray, with plastic expansion bolt.....	15N22	192

Fixing spring and fixing clip

fixing spring for cover cable tray.....	17W12-K	14, 25, 273
fixing clip for covers side height 100mm.....	173W12-K	79
fixing clip for covers side height 110mm.....	173W12-K110	25, 212, 273
fixing clip for covers wide span trays	173W12-KW	92, 111, 320
fixing clip for covers side height 60mm.....	171W12-K	14, 59, 69, 273, 283
cable fixing clip for INSTA tray.....	17N...-K-06	36

Fixing parts

fixing bracket	16J44 7 17J44	330
fixing screws	16J4-1070	185
fixing screws for plastic trays M6x16	17M5-E	58
fixing screws M10x20	16J6-1020	187
fixing screws M10x20 for internal-thread expansion bolt	15J6-K	336
fixing screws M10x25	16J5-Z	186
fixing screws M10x25	16J6-1025	187, 241
fixing screws M10x50	15J6-1050	187
fixing screws M12x25	16J12-A	187
fixing screws M12x35	16J6-1235	187
fixing screws M6x12	16J6-B	12, 187
fixing screws M6x12, stainless steel	17J6-B / 18J6-B	236, 263
fixing screws M6x16	16J6-D	187
fixing screws M6x20	16C8-Z	68, 78
fixing screws M6x20	17C8-Z	279
fixing screws M6x20	16J6-F	187
fixing screws M8x110 for trapezoidal sheet suspension	16N21-110	190, 191, 337
fixing screws M8x16	16J6-P	68, 77, 91, 101, 110, 119, 187
fixing screws M8x16	16J6-Q	187
fixing screws M8x20	16J6-R	187
fixing screws M8x20	16J6-S	46, 187, 335
fixing screws , stainless steel	17J4-... / 18J4-...	236
fixing screws M6x30	16J52-Z1	339
fixing screws M6x40	16J52-Z	339
fixing screws M8x30	16J51-Z	339
fixing screws M8x40	16J51-Z1	339
support corner	16U6-A	13, 24, 46, 68, 79, 91, 110, 210
support corner	17U6-A	275, 279, 321
concrete screw 10	15J1-FBS-1015S	180

Flat corner

flat corner for cable ladders	16C7-400-A	68, 78
flat corner	17C7-400-A	279

Grouting articles

grouting net anchor	15J1-FIS-H16130K	182
grouting threaded rod	15J1-FIS-A10110M	181
grouting mortar	15J1-FIS-V360S	182

H-support

H-support I80, without head plate, length 200 mm to 6000 mm	16A1-...	152, 209
---	----------------	----------

Hanging supports

hanging support for trellis tray	16U12-...	45
hanging support I80, with welded on head plate, length 200mm to 2000mm	16A3-...	155
hanging support with welded-on head plate, stainless steel, length 200mm to 1500mm	17A10-...	224
hanging support with welded-on head plate	17A16-...	222
hanging support with welded-on head plate	18A16-...	222
hanging support with welded-on head plate, length 200mm to 1500mm	18A10-...	224
hanging support with welded-on head plate, length 200mm to 1500mm	16A10-...	140
hanging support U50x22 with screwed-on head plate	16A16-...	135
hanging support U50x50 with screwed-on head plate, length 200mm to 2000mm	16A14-...	142
hanging support U60x40 with welded-on head plate, stainless steel	17A9-...	229
hanging support U60x40 with welded-on head plate, length 200mm to 2000mm	16A9-...	145

Head plate

head plate, stainless steel	17A5-K	228
head plate, stainless steel	17A5-P	228
head plate for H-support I80, for sloped ceilings	16A4-B	154
head plate for H-support I80, for sloped ceilings	16A4-BQ	154
head plate for H-support I80, for horizontal ceilings	16A4-A	153
head plate for H-support I80, for horizontal ceilings	16A4-AQ	153
head plate for U-profile 50x22	16A16-K	134
head plate for U-profile 50x50	16A14-K	141
head plate for U-profile 60x40	16A8-40	144

Head plate (continuation)

head plate for U-profile 60x40, stainless steel.....	17A8-40.....	231
head plate vertical for U-profile 15A15-... / 16A15-... ..	16A4-D.....	139
head plate for U-profile 15A15-... / 16A15-... ..	16A4-E.....	139
head plate, stainless steel.....	18A4-D.....	226
head plate, stainless steel, for U-profile 50x22.....	17A16-K.....	226
head plate, stainless steel.....	17A4-C.....	226
head plate, stainless steel, U-profile 15A15-... / 16A15-... ..	17A4-D.....	226
head plate, stainless steel, U-profile 15A15-... / 16A15-... ..	17A4-E.....	226
head plate, stainless steel.....	17A5-E.....	227
head plate, stainless steel, for U-profile 50x22.....	18A16-K.....	226

Head plate adapter

head plate adapter for high loads.....	16A4-0.....	156
--	-------------	-----

Hexagonal nut

hexagonal nut DIN-934-8.....	16J4-...-M.....	185, 334
hexagonal nut, stainless steel, thread M10 or M12.....	17J4-...-M.....	235

Hinge piece

hinge piece for C-trellis tray.....	16S11-C.....	52
hinge piece for C-trellis tray.....	16S11-C45.....	52
hinge piece for C-trellis tray.....	16S11-C90.....	52
hinge piece for C-trellis tray.....	16S11-C190.....	52
hinge piece for cable ladder, side height 100 mm.....	153E11-C / 163E11-C.....	77
hinge piece for cable ladder, side height 60 mm.....	151E11-C / 161E11-C.....	67
hinge piece for cable ladder, side height 60 mm, stainless steel.....	171E11-C / 181E11-C.....	282
hinge piece for cable trays, side height 110 mm, stainless steel.....	179E13-C.....	271
hinge piece for cable trays, side height 105 mm.....	153E12-C / 163E12-C.....	22
hinge piece for cable trays, side height 60 mm.....	151E12-C / 161E12-C.....	11
hinge piece for cable trays, side height 60 mm, stainless steel.....	171E12-C.....	261
hinge piece for plastic trays, side height 60 mm.....	301M5-C.....	58
hinge piece for wide span ladders, side height 200 mm.....	165C9-C.....	127
hinge piece for wide span trays or ladders, side height 105 mm.....	153C9-C / 163C9-C.....	87, 107
hinge piece for wide span trays or ladders, side height 150 mm.....	154C9-C / 164C9-C.....	98, 116

Hook screw

hook screw for trellis tray.....	16S14-B.....	45, 50, 250
hook screw, stainless steel.....	18J2-E.....	231

Inner edge

inner edge 45° with cover for INSTA-tray.....	15N...-I45-06.....	34
inner edge 90° with cover for INSTA-tray.....	15N...-I90-06.....	35

INSTA-tray

INSTA tray, side height 60mm.....	151N1-.....	31
INSTA tray, unperforated, side height 60 mm.....	151N2-.....	30

Internal-thread expansion bolt

internal-thread expansion bolt M10, load class 1.5 kN.....	15J1-FZEA-1240.....	181, 336
internal-thread expansion bolt M12, load class 1.5 kN.....	15J1-FZEA-1440.....	181
internal-thread expansion bolt M6, load class 0.5 kN.....	15J1-EA-M6.....	189

Joint cover plate

joint cover plate for cable tray.....	15W9-... / 16W9-... ..	7
joint cover plate for cable tray.....	15W7-... / 16W7-... ..	13, 22
joint cover plate for cable tray, stainless steel.....	17W7-... ..	261
joint cover plate for wide span tray.....	15W8-... / 16W8-... ..	87, 98
joint cover plate for wide span tray, stainless steel.....	17W8-... ..	297, 306

Joining pieces

joining element for H-support 16A1, 16A3.....	16J47.....	331
connection plate.....	16J40 / 17J40.....	330
joining profile, length 200mm to 600mm.....	16J9-... ..	176

Joining pieces (continuation)

connection angle.....	16J6-C	187, 210
connection angle for U-profile 60x40	16A8-50	144
connection angle pair, adjustable	16J50 7 17J50	332
connection angle, stainless steel	17J50	234
joining piece for wide span ladder, side height 200 mm	165C14	127
joining piece for wide span system, side height 150mm	174C9-	302, 316
joining piece for wide span system, side height 105mm	173C9-	297, 311
connection bracket for C-profile 40x22	16J54	333
bearing bracket.....	16J53 / 17J53	332
fixing sleeve.....	15J4-	186, 334
joining piece for H-support 16A1-..., 16A3-... and vertical cable ladders 16L3-...-L	16J5-B	186, 210

Kit

kit for vertical cable ladder with C-rungs 40x22	171L03-...-C.....	291
--	-------------------	-----

Knodded chain

knodded chain	15N28-30	189, 191
---------------------	----------------	----------

L-rung

L-rung 40x50 for vertical cable ladder like 16L3-...-L.....	16L13-...-L	209
---	-------------------	-----

Link chain

link chain , stainless steel	17N29-	235
------------------------------------	--------------	-----

Locking device

locking device for cover cable tray or ladder.....	16N12-V	14, 25, 69, 79
locking device for cover cable tray or ladder, stainless steel	17N12-V	273, 283
locking device for cover wide span systems	16N13-V	92, 102, 111, 120
locking device for cover wide span systems, stainless steel	17N13-V	320
locking device for cover molded components cable trays	16N14-V	14, 25
locking device for cover molded components cable trays stainless steel.....	17N14-V	273

Luminaire support tray

luminaire support tray, side height 50 mm	15N1-... / 16N1-	40
luminaire support tray, side height 50 mm, stainless steel	17N1-...-K	254

Marine cable ladder

marine cable ladder, side height 40 mm	160P1-	390
--	--------------	-----

Mounting accessory

mounting bracket for trellis tray	15S17-A	47, 250
mounting plate	15Y34-MP1 / 16Y34-MP1	12, 23
mounting plate	17Y34-MP1	264, 272, 306, 322
mounting rail U70x50, perforated.....	16F6-...-A	213
mounting angle L40x50, perforated.....	16F4-...-A	213
mounting accessory for clamping bracket	16B1-Z	157, 331

Nail anchor

nail anchor type FNA	15J1-FNA6	180
----------------------------	-----------------	-----

Outer edge

outer edge 45° with cover for INSTA tray	15N...-A45-06	34
outer edge 90° with cover for INSTA tray	15N...-A90-06	35

Plastic trays

plastic trays, perforated, side height 60 mm	301M2-	56
plastic trays, unperforated, side height 60 mm	301M1-	56

Press gun

press gun	15J1-FIS-AM.....	182
-----------------	------------------	-----

Profile clamp

profile clamp	16PK6-20	165
profile clamp, stainless steel, 5-39mm flange width	17A14-W-	233

Protective end caps

protective end cap for C-profile, 41x41, colour yellow	15J8-D	193, 331
protective end cap for C-profile, 40x22, colour yellow	15J8-E	193, 331
protective end cap for double C-profile 50x22	15A10-S	193
protective end cap for H-support, colour yellow	15J8-A	193
protective end cap for cable ladders, side height 100 mm, colour yellow	153J8-C	194
protective end cap for cable ladders, side height 60 mm, colour yellow	151J8-C	194, 285
protective end cap for for crimp wide span ladder	15J8-WSR	194
protective end cap for rungs for ladders	15J8-S	194
protective end cap for U-profile 50x22, colour yellow	15A16-S	193
protective end cap for U-supports 50x34, colour yellow	15J8-U50	193
protective end cap for U-supports 50x50, colour yellow	15J8-B	193
protective end cap for U-supports 60x40, colour yellow	15J8-U60	193
protective end cap for U-supports 70x50, colour yellow	15J8-U70	193

Protective ring

protective ring for cable protection tube, colour yellow, 30 mm diameter	15V9-A	376
protective ring for cable protection tube, colour yellow, 60 mm diameter	151V9-A	383

Rail plates

rail plates	16J4-40-12 / 17J4-40-12	333
-------------------	-------------------------------	-----

Rail nut

rail nuts for C-profile 30x15	16J18-M6	335
rail nuts for C-profile 30x15	16J18-M8	335
rail nuts M6 for C-profile 40x22 and 41x41	16J18-M6	335
rail nuts M8 for C-profile 40x22 and 41x41	16J18-M8	335
rail nuts M10 for C-profile 40x22 and 41x41	16J18-M10	335

Reducing joint

reducing joint for cable trays, side height 110 mm, stainless steel	173W18-	271
reducing joint for cable trays, side height 60 mm	161W18-	12
reducing joint for cable trays, side height 60 mm	171W18-	263
reducing joint for cable trays, side height 110 mm	163W18-	23

Replacement chain link

replacement chain link for knodded-chain 15N28-30	15N28-01	189, 191
---	----------------	----------

Rungs for marine cable ladder

rungs of trapezoidal profile	16P4-...-A	392
rungs, width 30mm	16P4-...-B / 16P4-...-BF	392
rungs, width 50mm	16P4-...-C / 16P4-...-CF	392

S-hook

S-hook, stainless steel, 35x4mm	17N29	235
---------------------------------------	-------------	-----

Screws

mushroom-head screw M10x25, stainless steel	17J6-1025	236
screw M10x50 for clamping claw 16A4-13-D	16A4-13-Z2	162
screw M10x50 for clamping claw 16A4-13-DA	16A4-13-Z1	162
screw M12x65 for clamping claw 16A4-1-DA	16A4-Z1	160
screw M12x75 for clamping claw 16A4-1-D	16A4-Z2	160

Setting tool

setting tool for internal-thread expansion bolt 15J1-EA-M6	15J1-EAW-H6	189
setting tool for foam mortar expamsion bolt 15J1-PBD-1010	15J1-EWP-1010	182

Slide nut

slide nut M8 for C-profile 41x41	16J22-M8	335
--	----------------	-----

Slide nut (continuation)

slide nut M10 for C-profile 41x41	16J22-M10.....	335
slide nut M812for C-profile 41x41	16J22-M12.....	335

Splice plate

splice plate, stainless steel	17A15-V	226
splice plate, stainless steel	17A30-V	227
splice plate, stainless steel	18A15-V	226

Standard support

standard support for trellis tray.....	16U2-200	45
--	----------------	----

Steel expansion bolt and foam mortar expansion bolt

foam mortar expansion bolt M10, load class 1.5 kN	15J1-PBD-1010	182
steel expansion bolt M8, load class 2.4 kN, stainless steel.....	18J1-FAZ-0810	180
steel expansion bolt M8, load class 2.4 kN, clamping range 10mm	15J1-FAZ-0810	180
steel expansion bolt M8, load class 2.4 kN, clamping range 30mm	15J1-FAZ-0830	180
steel expansion bolt M8, load class 2.4 kN, stainless steel.....	18J1-FAZ-0830	180
steel expansion bolt M10, load class 4.3 kN, clamping range 10mm.....	15J1-FAZ-1010	180
steel expansion bolt M10, load class 4.3 kN, stainless steel.....	18J1-FAZ-1010	180
steel expansion bolt M10, load class 5.2 kN, clamping range 10mm.....	15J1-FH-15B	180
steel expansion bolt M12, load class 7.6 kN	15J1-FAZ-1210	180
steel expansion bolt M12, load class 7.6 kN, stainless steel.....	18J1-FAZ-1210	180
steel expansion bolt M12, load class 8.2 kN, clamping range 10mm.....	15J1-FH-1880B	180
steel expansion bolt M16, load class 13.4 kN, clamping range 25mm.....	15J1-FAZ-1625	180

Stiffening profile

stiffening profile U50x50.....	16J14-55.....	144
stiffening profile U60x40.....	16J14-64.....	144
stiffening profile, stainless steel.....	17J14-64.....	229

Straight joint

straight joint for marine cable ladder.....	160P11-A	393
straight joint screwless for trellis tray	15S14-E	47
straight joint screwless for trellis tray, stainless steel	17S13-E / 17S14-E	348
straight joint screwless, for side height 110 mm	151E14-A / 161E14-A.....	7
straight joint for C-rail 41x41	16J45.....	331
straight joint for C-rail 41x41	16J46.....	331
straight joint for cable ladder and vertical cable ladder, side height 60 mm	151E11-A / 161E11-A.....	67, 204
straight joint for cable ladder and vertical cable ladder, side height 60 mm, stainl. steel ..	171E11-A / 181E11-A.....	282, 290
straight joint for cable ladder, side height 100 mm	153E11-A / 163E11-A.....	77
straight joint for cable tray, side height 60 mm.....	151E12-A / 161E12-A.....	11
straight joint for cable tray, side height 60 mm, stainless steel.....	171E12-A	261
straight joint for cable tray, side height 105 mm.....	153E12-A / 163E12-A.....	22
straight joint for cable tray, side height 110 mm, stainless steel.....	173E12-A	261
straight joint for plastic tray, side height 60 mm	301M5-A	58
straight joint for vertical cable ladder, stainless steel	17J5-F.....	230, 291
straight joint for U-support 16A7-... , 16A9-... and vertical cable ladder	16J5-F.....	186, 206
straight joint for wide span systems, side height 105 mm	153C9-A / 163C9-A	87, 116
straight joint for wide span systems, side height 150 mm	154C9-A / 163C9-A	98, 116
straight joint U-form, height 99 mm, stainless steel.....	173E13.A-.....	269

Support element

support clamp for light electrical installations	16J21-10.....	188, 337
support bracket, simple for trellis tray	16S13-B	46
support bracket with screws M12x30	16J7-A	188
support console, width 100mm to 300mm	15B18-... / 16B18-...	170
support corner for vertical cable ladder 16L3-...-C	16L4-C	210
horizontal support bar for trellis tray.....	16U1-3000	45
support corner, stainless steel, length 100mm to 600mm	17J7-...	238
trapezoidal sheet suspension	15J21-D	190, 191, 337
trapezoidal sheet suspension, stainless steel.....	17J21-D	237
trapezoidal bracket.....	15J51-A	339

Suspension bracket

suspension bracket for INSTA tray	15N30-60 / 15N30-100	191
suspension bracket for luminaire support tray	15N30-50 / 15N30-100	189
suspension bracket	15A11-	146
suspension bracket, stainless steel	17N30-	237

T-downward

tee downward for wide span ladder, side height 200 mm	165C5-	126
---	--------------	-----

Tee

tee	16J42 / 17J42	330
tee for wide span ladder, side height 105mm	153C4-...-S / 163C4-...-S	109
tee for wide span ladder, side height 105mm, stainless steel	173C4-...-S	314
tee for wide span ladder, side height 150mm	154C4-...-S / 164C4-...-S	118
tee for wide span ladder, side height 150mm, stainless steel	174C4-...-S	319
tee for wide span tray, side height 105mm	153Y4-... / 163Y4-...	89
tee for wide span tray, side height 105mm, stainless steel	173Y4-...	300
tee for wide span tray, side height 150mm	154Y4-... / 164Y4-...	100
tee for wide span tray, side height 150mm, stainless steel	174Y4-...	305

Threaded rod

threaded rod, stainless steel, M10 or M12	17J4-M...-1000	235
threaded rod M6x1000	15J4-M6-1000	185, 334
threaded rod M8x1000	15J4-M8-1000	185, 334
threaded rod M10x1000	15J4-M10-1000	185, 334
threaded rod M6121000	15J4-M12-1000	185, 334
fixing for threaded rod for trellis trays	15S16-A / 16S16-A	47

Threaded sleeve

threaded sleeve M6	15N24	189

§1 General

- (1) The following conditions are valid for all quotations and orders. These conditions are accepted as binding by the purchaser when ordering. Alterations and verbal agreements must be confirmed in writing. Orders can only be considered as accepted upon receipt for our confirmation.
- (2) If our Conditions of Sale and Delivery do not agree with those of our business partners, the latter will be binding for us if they are accepted by us in writing on concluding of the contract.
- (3) Any confirmation by the purchaser with a corresponding reference to the purchaser's conditions are herewith rejected expressly. In as far as the conditions contradict each other, the statutory regulations shall apply.

§3 Quotations

- (1) Prices are quoted without obligation. Illustrations, dimensions and weights are approximate. Rights of alteration reserved. Quotations and technical data are subject to copyright.

§3 Delivery

- (1) Delivery is to be understood carriage forward ex works. The delivery dates are specified in the confirmation of order. Partial delivery is permitted. Appointed dates of delivery extend the period at a time, in which we are prevented from the supply by circumstances, which are to be represented not directly from us to.
- (2) In as far as circumstances not lying within our responsibility impede, delay or make impossible the execution of the orders accepted by us, we are entitled to postpone the contractual obligation/remaining obligation by the period of duration of the circumstances, or to withdraw from the contract partially or completely. These circumstances not lying within our responsibility include in particular official measures, obstructions of traffic, strikes, shortage of raw materials and shortage of fuels and operating materials, breakdowns and interruptions at our suppliers, etc. If a binding delivery date is exceeded by more than two weeks, the purchaser is entitled to withdraw from the contract after expiry of an extension of a week. This extension for delivery must be set in writing.
- (3) On dispatch of an order from the factory or stockist all risks become the purchaser's responsibility. The purchaser is also responsible for the correct acceptance, onloading and storage at the point of delivery.
- (4) Packing, transit period and also means transport are left for lack of special agreements of our choice. They are computed in each case at the cost price. We take crates back during freight-free return, if such are intact, to 2/3 of the computed amount. The one-way or poolpalettes used for transport are to be exchanged or sent back with assumption. Storage-like led and smallest packing units proven in the list can not be started for rationalization reasons. With order of deviation numbers of items the nearest packing unit is supplied.

§4 Assembly and installation

- (1) Our special terms for assembly and installation apply additionally for assembly and installation orders.

§5 Prices

- (1) Prices are to be understood ex works. If differently goes not agree, the prices and conditions of the price list valid with contract conclusion apply.
- (2) Later than 4 weeks after conclusion of a contract if deliveries or other outside capital east, which are contained in the agreed upon price, change or develop them again, we are entitled to the appropriate extent to a price adjustment.
- (3) Partial deliveries are to be paid within the deadlines specified in the terms of payment.
- (4) Value-added tax is specified separately in the invoices and is to be borne by the purchaser.

§6 Payment

- (1) Invoices are payable within 14 days after the date of invoice with 2 % cash discount, or 30 days net after issue. Assembly and installation outputs and/or all reward works are to be paid without discount deduction within 14 days.
- (2) The calculations are to be paid interest on starting from maturity and entrance of the calculation with 8 % over the respective basis interest rate. The asserting of a further interest damage remains available.

§7 Warranty of Defects

- (1) Is there any defect, which already exists at the time of the Transfer of perils or whose cause is in the product, RICO is entitled to the choice between rectification of defects and compensation delivery. Both variants of supplementary performance are for the buyer free of charge.
- (2) Requirements for material defect fall under the statute of limitations in 12 months. This does not apply, so far the law in accordance with §§ 438 exp. 1 No. 2 (buildings and things to buildings), for 479 exp. 1 (requirement for resort) and 634a exp. 1 No. 2 (lack of building) or according to the Product Liability Act a longer period of time are in force or the lack was maliciously kept secret.
- (3) The orderer has to reprimand material defects opposite the supplier immediately in writing.

§8 Liability

- (1) Except for damages to lives, body, health and damages due to the violation of essential contract duties (Duties whose fulfillment may facilitate the proper realization of the contract anyway and trusts and may trust in their regular compliance) compensation obligations of the sales assistant are restricted to such damages, which base onto guile, intention or coarse negligence. Damages arising from the injury of essential contract duties are only liability-activating, if they are united with the contract in typical manner.
- (2) Claims for compensation of the orderer become invalid by prescription with course of the limitation period being valid for material defect claims according to §7 Abs. 2 provided that they are not based on intention. The limitation period of the §7 Abs. 2 is valid also for measures of the damage defense, in particular product recall, as far as urgently is not been liable. (Comp. paragraph 1)
- (3) With claims for compensation according to the liability law the legal limitation rules are valid.

§9 Export contracts

- (1) German law will apply under all circumstances. The application of the international purchase laws is impossible.

§10 Reservation of proprietary rights

- (1) The following securities shall be granted to us until all the claims to our benefit (including all claims on balances from a current account) arising from any legal justification against the purchaser now or in future have been satisfied. If demanded by the purchaser, these may be released on our discretion in as far as their value exceeds the value of the claims by more than 20 % in the longer term.
- (2) The goods supplied shall remain our property. Any processing treatment or transformation is always carried out for us as the manufacturer, however without any obligation on our part. If our (co-) property expires through connection, agreement is reached with this document that the (co-)property of the purchaser in the uniform object shall pass to us in proportion to the value (invoice value). The purchaser keeps our (co-)property safe free of charge. Goods of which we have (co-)property are designated as goods under reservation below.
- (3) The purchaser is entitled to process and dispose the goods under reservation in proper business, as long as the purchaser is not in arrears. Mortgaging, pawning or transference as security are not allowed. The purchaser herewith cedes to us to the full extent any claims on the goods under reservation (including all claims on balances from a current account) resulting from their further sale or from any other legal justification (insurance, unauthorised or forbidden actions) resulting from our business relations with the purchaser until these claims have been fulfilled.
- (4) We herewith revocably authorise the purchaser to include the claims ceded to us on ist account in ist own name. This direkt debit allowance can only be with-drawn by us if the purchaser does not fulfil ist obligations to pay properly.
- (5) In the case of third parties seizing the goods under reservation, in particular in the case of seizures, the purchaser will point out our property rights and inform us without any delay so that we can assert our property rights. In as far as the third party is not able to reimburse us for any judicial or non-judicial costs arising from this matter, the purchaser shall bear the responsibility.
- (6) If the purchaser infringes the contract – in particular through default in payment – we are entitled to take back the goods under reservation or, if appropriate, to demand that the purchaser cede to us his rights to surrender against third parties. Neither our taking back the goods under reservation nor their seizure by us constitutes a rescission of contract on our part.

§11 Place of performance and jurisdiction

- (1) The place of performance and jurisdiction is Kirchheim/Teck, Germany, if the customer has a merchant character.
