Corporate Environmental Policy

The NIEDAX GROUP requires every manager, employee and supplier to be personally committed to all environmental issues implemented in our processes as requirements to daily business routines.

Legal Compliance

The NIEDAX GROUP securely meets all environment related legal requirements that apply to processes and products. Foreign standards are also monitored for they might effect delivery chains.

Reduction of pollution, emissions and waste

The NIEDAX GROUP strives to reduce harmful impacts on the environment to a minimum by constantly reviewing its processes. All industrial emissions are closely monitored and subjected to constant improvement by investing into the most innovative techniques available.

Commercial packaging is dealt with in compliance to the European Commission Directive 94/62/EC on Packaging and Packaging Waste.

All products and packaging fully comply to the European Directive on the Restriction of Hazardous Substances RoHS (2011/65/EC).

Reduction of the use of raw materials, energy and supplies

The NIEDAX GROUP focuses on sustainable production by innovation and the use of the latest technology available. Consumption of water, energy and of raw materials are closely monitored operating figures, subjected to constant improvement and yearly management review.

Employees receive training units concerning environmental issues on a regular basis and are highly encouraged to participate in the improvement process.

Customer assistance

The NIEDAX GROUP is equipped with extensive resources on an international basis to provide support on environmental related topics, eg. LEED, DGNB.

Linz am Rhein, 8th April, 2019
